# Hand Crafted

We are renowned for working closely with customers and retailers to give them their own perfect sleep solutions. This is why our collection provides a perfect reference to create your own, bespoke range of beds and mattresses. Utilising our in-house design team, our focus is to promote your brand in the best possible way and give your customers the best possible products.

## Revolutionary technology

Working with our suppliers, we have been able to bring revolutionary technology to the mattresses with properties that help give the best sleep. Extra airflow, heat dissipation and anti allergen using microcapsules containing natural probiotics make these mattresses our most technological advanced yet.

## Handcrafted

All of our mattresses have been built the traditional way, using skilled craftsmanship to bring a touch of luxury to our collections. Featuring up to 4 rows of Hand Side Stitching and hand tufted covers, we make sure there is care put in to every mattress we make.

For projects that are targeted more for the commercial market, we've developed our range of mattresses to be not only compatible for home, but also for Crib 5 contract use. We've highlighted the ranges applicable to give you peace of mind when choosing for your project needs.

## The finest fillings

We work with the best Fillings to give all of our customers the comfort they deserve. Using natural Fillings such as British wool, silk, alpaca, cashmere and cotton in our mattresses, we create a mattress which is truly sumptuous and luxurious.

## Finishing touches

The finishing touches really complete a product and bring a sense of care. Our chrome Vents and Flag Stitched Handles feature on a number of our mattresses, offering air flow keeping it fresh and odour free, while the handles help when needing to rotate the mattress.

Please note : The above mattress is for display purposes only.

## ALPACA

The most premium and luxurious of our materials, Alpaca is soft to the touch thanks to its extremely fine fibres. The perfect material for allergy sufferers, Alpaca fibres do not naturally harbour allergens.

## CASHMERE

Cashmere adds an extra bit of luxury to our mattresses thanks to its extraordinary softness. Its finer fibres offer a more luxurious feel whilst absorbing moisture to keep you cool and dry night after night.

## COTTON

Strong and durable, cotton is a naturally soft fibre providing great comfort and support. Often found in the top layers of a mattress to give an overall softer feel to the surface and a more comfortable sleep.

## LUXURY FIBRE

Used to add layers of comfort, our luxury mixed fibres have good recovery properties, allowing your mattress to bounce back.

## SILK

This wonderful natural material offers moisture control and comfort, helping to create a cooler, fresher sleeping environment.

## WOOL

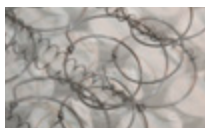

With its soft feel, breath-ability and durability, wool provides that extra layer of comfort whilst regulating the body temperature. Being a natural filling, no harmful chemicals are required making it anti-allergenic.

## POCKET SPRING

Designed to give support and comfort, each encased in its own pocket. Every spring adjusts to the shape of your body and helps to prevent 'roll together'.

## OPEN COIL

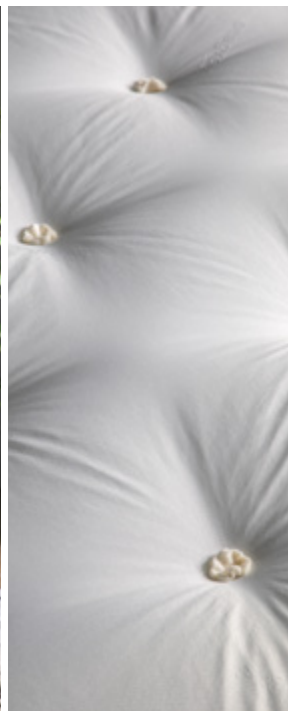

Providing excellent support our open coil solutions are ideal for those who prefer a firmer tension. Being lighter in weight our open coil mattresses are easier to turn and manoeuvre.
