Lighting Collection 2021-2022

nordlux®

We create products you want to bring home

We proudly present our 2021 assortment

Our mission is to create products you want to bring home. That means that we persistently develop and improve our range of products to provide even greater designs, more exciting functionalities and higher quality at surprisingly low prices.

These high standards are also reflected in the novelties for this year in all product categories, where each category has its significant highlights: The style universe of our Decorative collection ranges from classic designs and contemporary style to new, exciting trends. The keywords are natural elements of wood and soft shapes and industrial clean lines with an edge.

We also enhance our close collaboration with skilled, Danish designers for our Outdoor collection, acknowledging that practical and beautiful lighting is just as important outdoors, as it is indoors.

Our Functional products this year are both more practical and beautiful than ever.

We provide functional solutions for all needs and areas of the home in a streamlined, modern design. Because functional lighting should always be a beautiful as well as functional part of the interior design.

We are also significantly expanding our range of Smart products that can be controlled with a smartphone or tablet for full customisation and convenience. A brand-new competitive bulb assortment including both Smart and decorative bulbs are also highlights from Nordlux this season.

We recognize that our products need to fulfill real needs in peoples lives, whether it is a functional one, a decorative one or a convenient one. Every day, we work to fulfill these needs, and we aim to do it while providing excellent value for money.

Ultimately, we want to be able to say that we are lifting people's quality of life with light.

Decorative Collection 2021-2022

This year, the Nordlux Decorative collection balances impeccable aesthetics with practical functionality. The 2021 style universe is wide and diverse, ranging from classic designs and contemporary style to new, exiting trends.

The keywords for this collection are natural elements of wood and soft shapes, industrial clean lines with an edge and rethinking design traditions such as Art Deco and Nordic minimalism.

We also expand our multi-functional lighting range that adds to making everyday life easier, brighter, and more beautiful.

Our decorative range brings these trends together in stunning and practical lighting that lifts people's quality of life.

We proudly present our 2021 collection.

Dicte Series

The round shade of the Dicte series is made from smooth, handtied fabric that adds a cosy and homey feel to every room.

The pleated cotton shade ensures a soft and diffused light while maintaining a stringent and streamlined design expression.

Fleur Table
2112115001

Fleur Series

Fleur is inspired by old times, vintage design and soft lines.
The beige powder coloured lamp is decorated with beautiful brass details.

You can easily adjust the lamp head for a pleasant, directional light.
The light is turned on and off by the retro rocking switch.

Learn more about Fleur on page 78

Fleur Wall
2112101001

Ellen Table
2112305003

Ellen Table

With references to minimalist and timeless Scandinavian design, Ellen fits beautifully into most interior designs.

The mat white glass, domed shade adds an elegant contrast to the lightweight frame and contributes visual volume and a wide field of light.

Learn more about Ellen on page 160

Ellen Table
2112305035

Notti Pendant
2011003010

Notti Series

Notti is a great example of form, materials and details that come together in the most beautiful way.

The organic and harmonic shape contributes to a complete and aesthetic expression, which certainly will do well in any interior design.

Learn more about Notti on page 80

Bend Series

Bend Single Floor
2112774003

Watch the video

Bend integrates flexibility and function with soft and homey design. The family of functional lights has integrated LED and flexible joints that you can adjust to fit your needs, whether you need it for working, reading or just relaxing.

The Build-in 3-step Moodmaker™ function lets you dim the light for full customization.

Bend Double Floor
2112784003

Skylar Pendant
2113003029

Watch the video

The Skylar luminaire is the epitome of high functionality and cool, industrial design.

The beautiful minimalistic design is equipped with innovative technology in the form of Build-in three step dimming function (Moodmaker™), which gives you the opportunity to easily change the light from your regular wall switch.

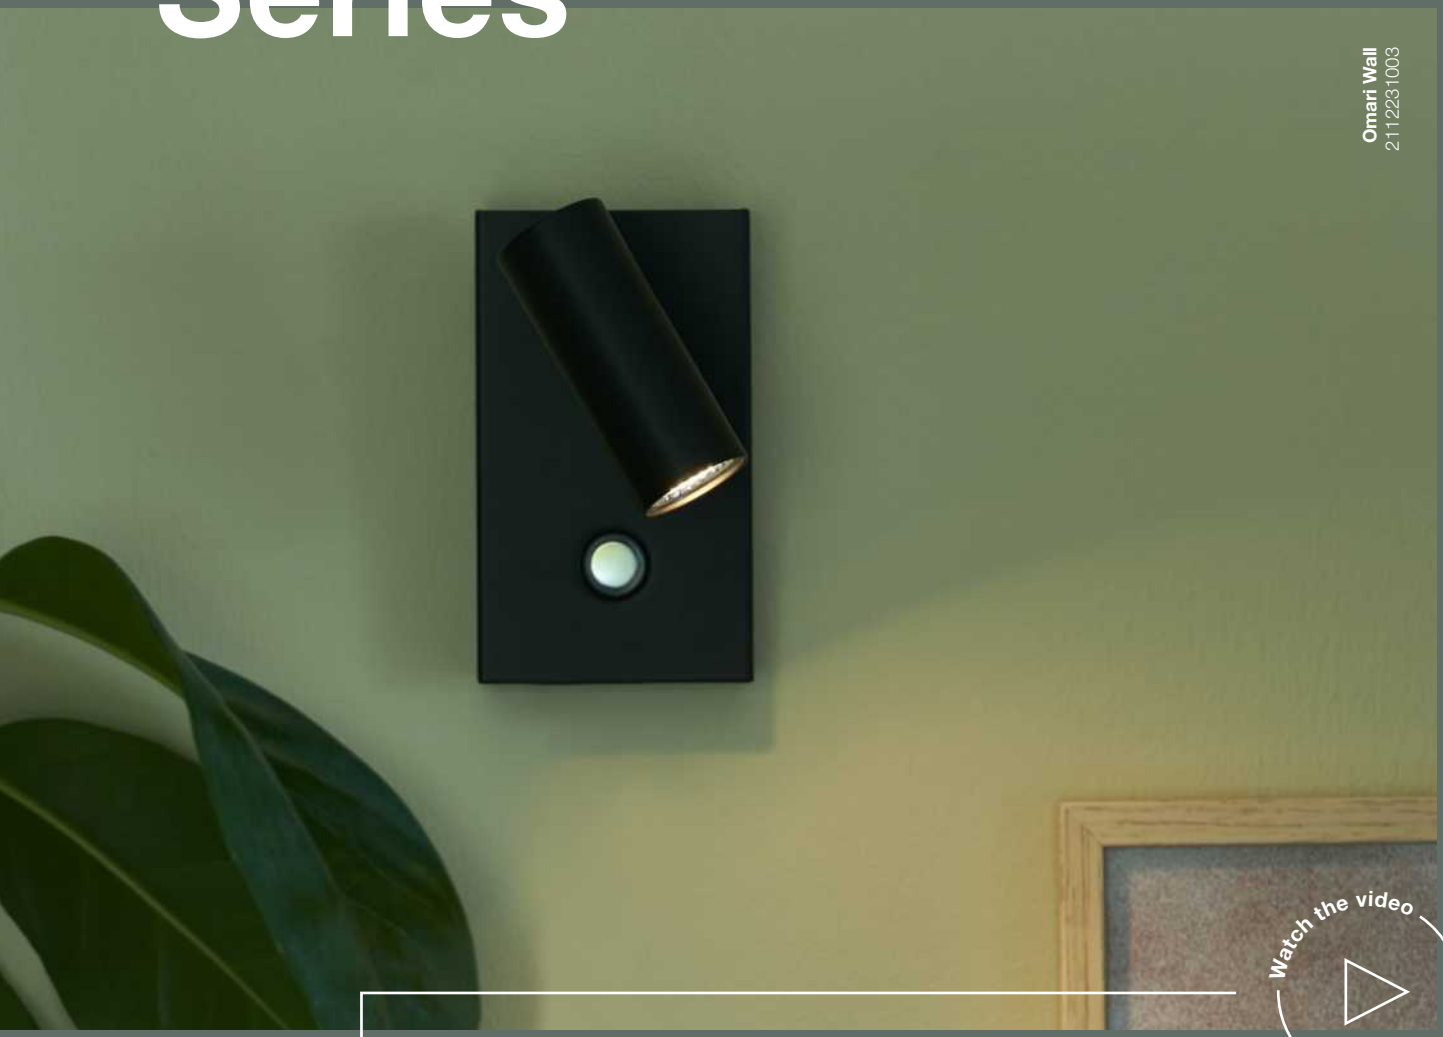
Choose between simultaneous down light and side light, only down light or only side light.

Learn more about Skylar on page 98

Skylar Series

Skylar Pendant
2113003003

Omari Series



Omari Wall
2112231003

Watch the video

The Omari series emits light, clean and simple Nordic lines.

The minimalist and streamlined design is easy to fit into most interior designs - perfectly balancing functionality and aesthetics.

The Moodmaker™ dimmer function makes it easy to adjust the light to every situation and need.

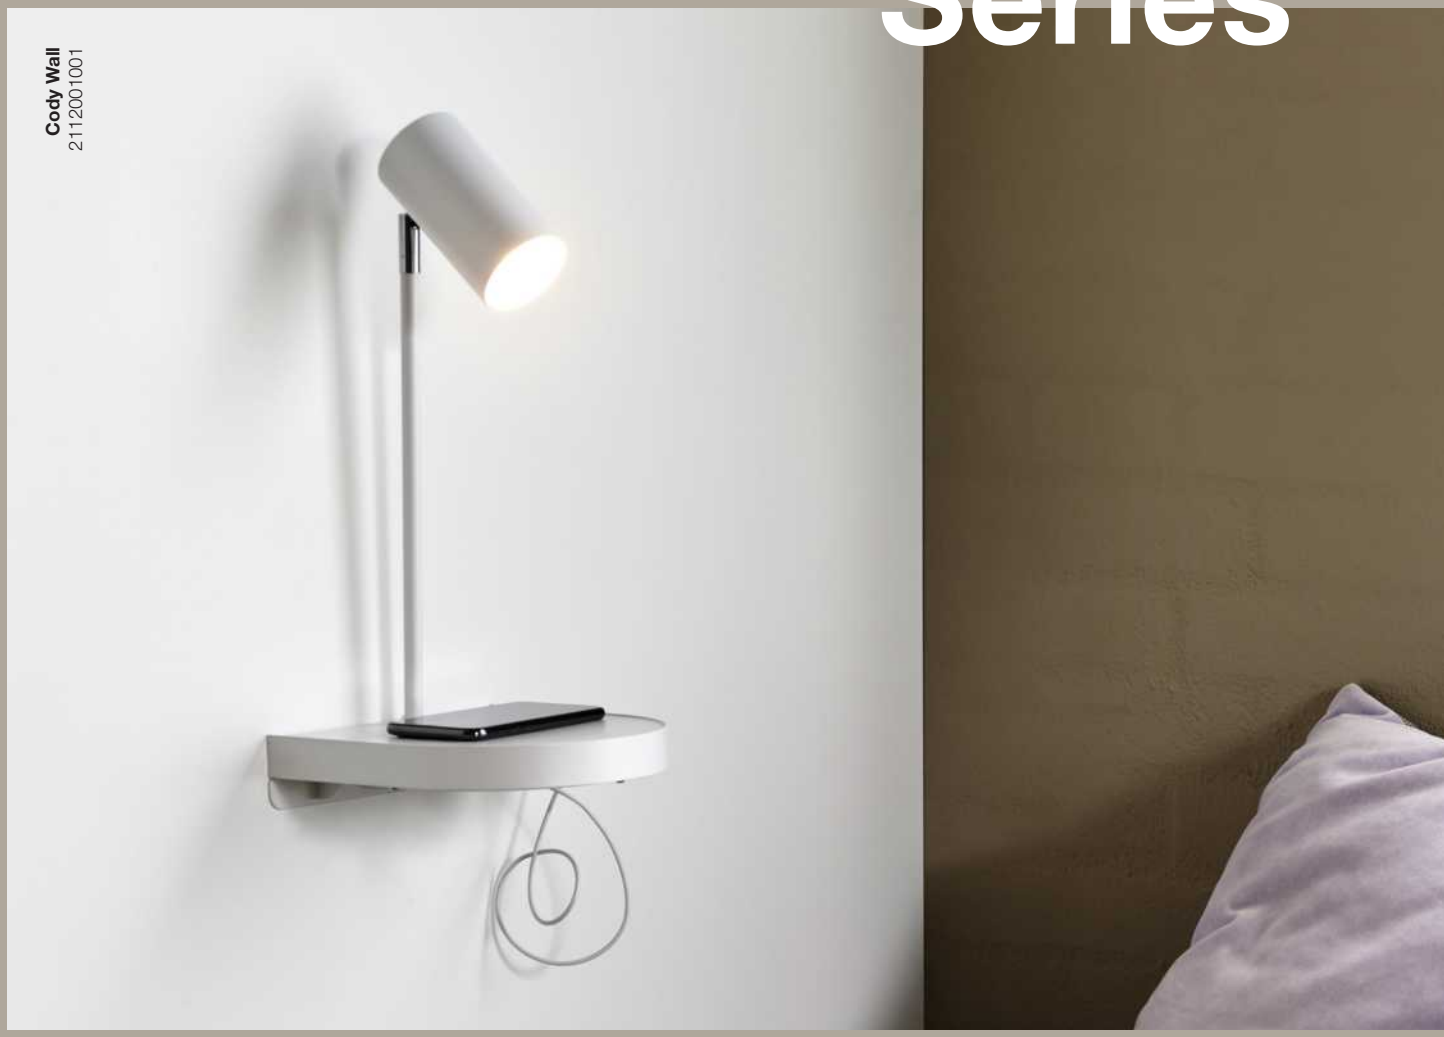
Cody Wall
2112001003

Cody Series



Cody Wall
2112001001

Cody is a multifunctional wall lamp in a compact, minimalist design.

The practical shelf is perfect for keeping your most important necessities within reach and makes it ideal for your bedside.

A USB port underneath the lamp makes it easy to charge your phone or other device. You can easily adjust the lamp head for a practical, directional light.

Learn more about Cody on page 88

Roomi Series

Roomi Wall
2112551001

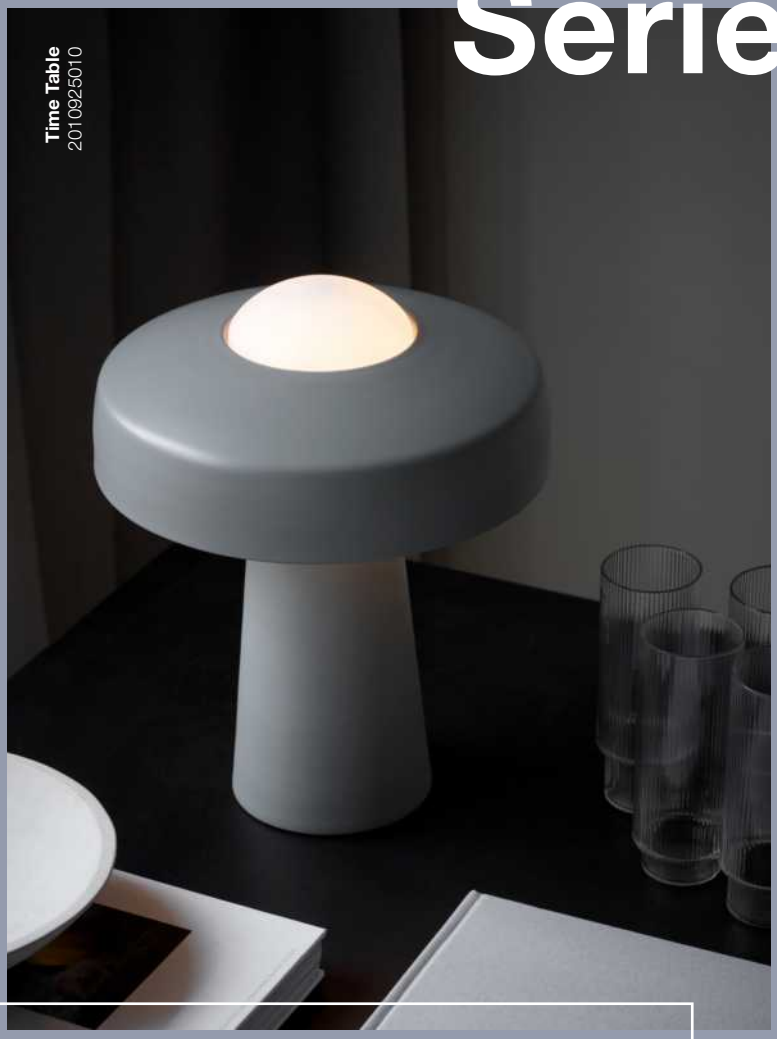
The Roomi wall light is both a functional light, a magazine compartment and a practical shelf that can store your most important necessities.

The lamp head is easily adjusted for a directional light, and you can charge your smartphone or other device with the Build-in USB port placed underneath the shelf. Perfect beside your bed or in the entrance hall to keep track of your phone and keys.

Learn more about Roomi on page 88

Time Table
2010925003

Time Series



Time is inspired by sponges in the forest, and together with the combination of matte metal and glass a simple and elegant expression is obtained.

An upward and downward light is created with the small glass element on the top of the shade, which contributes to a cosy atmosphere.

Time has a Build-in on/off function in the base, where you can turn the light on and off by touching anywhere on the base. Design and technology is nicely combined in this beautiful table lamp.

Learn more about Time on page 89

Clyde Series

Slim Nordic design and innovative technology is combined in the most compelling way in the Clyde series.

Clyde has a Build-in Moodmaker™ function, which allows you to adjust the light from your regular wall switch in three steps according to needs and situation.

Learn more about Clyde on page 102

Groa Pendant
2112453014

Groa Series

Groa is an open pendant, where the wooden structure supports a beautiful shadow play – an interplay of light and shadow is at the heart of this pendant.

The light spreads downwards and into the room in the most beautiful way. Create your own design expression by adding a decorative bulb.

Learn more about Groa on page 136

Uma 18 & Uma 18
2112703027 & 2112723027

The Uma series adds a modern and decorative touch to the classic pendant.

The mouth blown glass shade has an elegant, oval shape that frames the light beautifully.

2112063003

Josefine Wall
48941003

Josefine Series

Josefine Pendant
48933003

The innovative and playful design makes Josefine a decorative and modern series. The stringent tube contributes to an industrial look, which complements a rough and modern decor.

In contrast to the industrial expression are the beautiful brass details and soft shapes, balancing minimalism and elegance in the finest possible manner. Furthermore, the Josefine series allows you to create your own design expression by adding decorative bulbs.

Learn more about Josefine on page 148

Contina Series

Contina Pendant
2113153035

Contina combines attractive design and functionality, where it is the carefully selected details that make the series really stand out.

The light frame is completed by a spherical opal white glass ball that hides the light source and spreads a soft glare-free light into the room.

Outdoor Collection 2021-2022

Good lighting is just as important outdoors as it is indoors. A great ambience is crucial for creating inviting outdoor areas that are both aesthetically pleasing as well as practical. This year, our 2021 novelties for the Outdoor collection add a wide variety of designs to an already extensive range.

In close cooperation with skilled Danish designers, we introduce timeless, outstanding designs that will beautifully embellish any house façade, driveway or garden and at the same time provide a good, practical light.

We also introduce Cross by designer Maria Berntsen - an elegant, round wall light with maritime design references. Both designs are made from very durable materials that stay beautiful year after year even in harsh outdoor environments.

The popular "Take Me Anywhere" concept is expanded with two new products, Bob and Leo. The wireless, portable concept is perfect for warm summer nights on the balcony or the terrace where there is no electricity to be connected.

We also extend our Solar range with new products that are charged by sunlight during the day and turn on when detecting motion or when darkness falls. Both concepts building on technology that challenge the boundaries of fixed outdoor lighting.

We proudly present our 2021 collection.

Arki 35 Wall
2118111003

Arki Series

Arki 20 Wall & Arki 100 Garden
75181031 & 21 18108031

The Arki series by Danish designer Bønnelycke MDD is characterised by its beautiful dome-like shade and minimalist, clean lines inspired by the classic architect lamp. The oversize shade adds a grandiose and spectacular quality to your house facade.

Arki beautifully balances simplicity with sophistication while emitting the perfect light for your entrance, driveway, terrace or other outdoor space.

Take me anywhere

Take Me Anywhere is a range of portable outdoor lights that will beautifully light up the dark and extend warm summer nights on the terrace, the balcony or wherever you need a pleasant, cosy light.

Take Me Anywhere perfectly balances functionality and aesthetics by providing great light wrapped in a beautiful and streamlined design.

The range has a high IP rating and is made from very durable materials that stay beautiful in all kinds of weather.

Sponge 20 Table, Sponge 34 Table, Sponge Pendant & Sponge Spike
2018135003, 2018165003, 2018103003 & 2018128003

Designed by Danish designers Says Who

Sponge is named after sponges in the forest, where the inspiration for design, shape and expression also is found. The simple design and soft shapes make Sponge an incredibly elegant series, suitable inside and outside the home.

With the Build-in battery, Sponge can be placed and moved as you like and simultaneously, the brightness of the light can be adjusted in three levels. The battery has a durability up to five hours at full power and even longer, if the light is turned down to a cosy lighting. The battery is easily charged by the included USB cable.

Learn more about Sponge on page 247

SAYS WHO

Sponge Series

The portable Sponge series is designed for your balcony, garden and terrace. You can also bring it with you to the beach or the park.

Decorative Danish design - designed for the harsh outdoors with long battery life and high lumen output.

Sponge To Go & Sponge 34 Floor
2018145003 & 2018154003

Kettle 22, Kettle 36, Kettle Tripod 31 Metal, Kettle Tripod 110 Wood & Kettle Spike

Kettle Series

Kettle 22, Kettle 36, Kettle Tripod 31 Metal, Kettle Tripod 31 Wood & Kettle Tripod 110 Metal
2018003003, 2018013003, 2018035003, 2018035014 & 2018044003

Designed by Danish designers Says Who

The possibilities are endless with the Kettle series, as you can customise the type of lamp you want with the replaceable accessories.

Design and functionality is carefully thought through, beautifully illuminating your everyday life - both inside and outside.

Kettle is not only decorative, it also provides a good light that can be adjusted in three levels. The Build-in battery has a durability up to five hours at full power and even longer, if the light is turned down to a cosy lighting.

The battery is easily charged by the included USB cable.

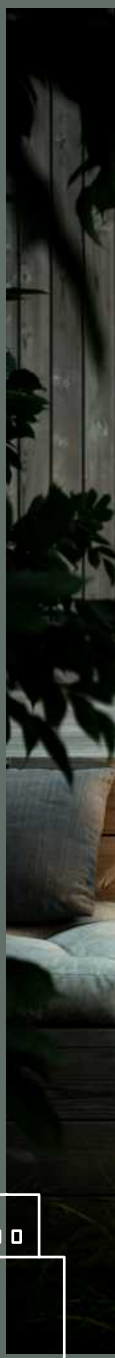
SAYS WHO



Solar Series

Learn more about our Solar Series from page xx

Bob Series

Designed by Danish designers Says Who

Bob is a modern, solar powered and transportable lamp designed by Danish designers Says Who. Design and functionality comes perfectly together - just grab the cordless lamp by the handle and place it wherever you need it.

Bob creates a cosy ambience in the garden or on the terrace by turning on automatically when darkness falls. Suitable to place on Kettle spike or tripod, if you want to elevate your light.

Learn more about Bob on page 246

SAYS WHO

Rica Round Wall & Rica Round Garden
2118141003 & 2118158003

Rica Series

Rica Square Wall & Rica Square Garden
2118161003 & 2118178003

The Rica series is a series of cordless, solar powered garden lamps in a modern and minimalist design.

The pole lamps are charged by sunlight during the day, and turn on automatically when detecting motion. The downwards facing light is perfect for illuminating your main entrance, driveway or other areas with a lot of traffic. Nordlux offers a 5-year LED guarantee.

Learn more about Rica on page 280

Cross Series

Cross 25 Wall
2118131035

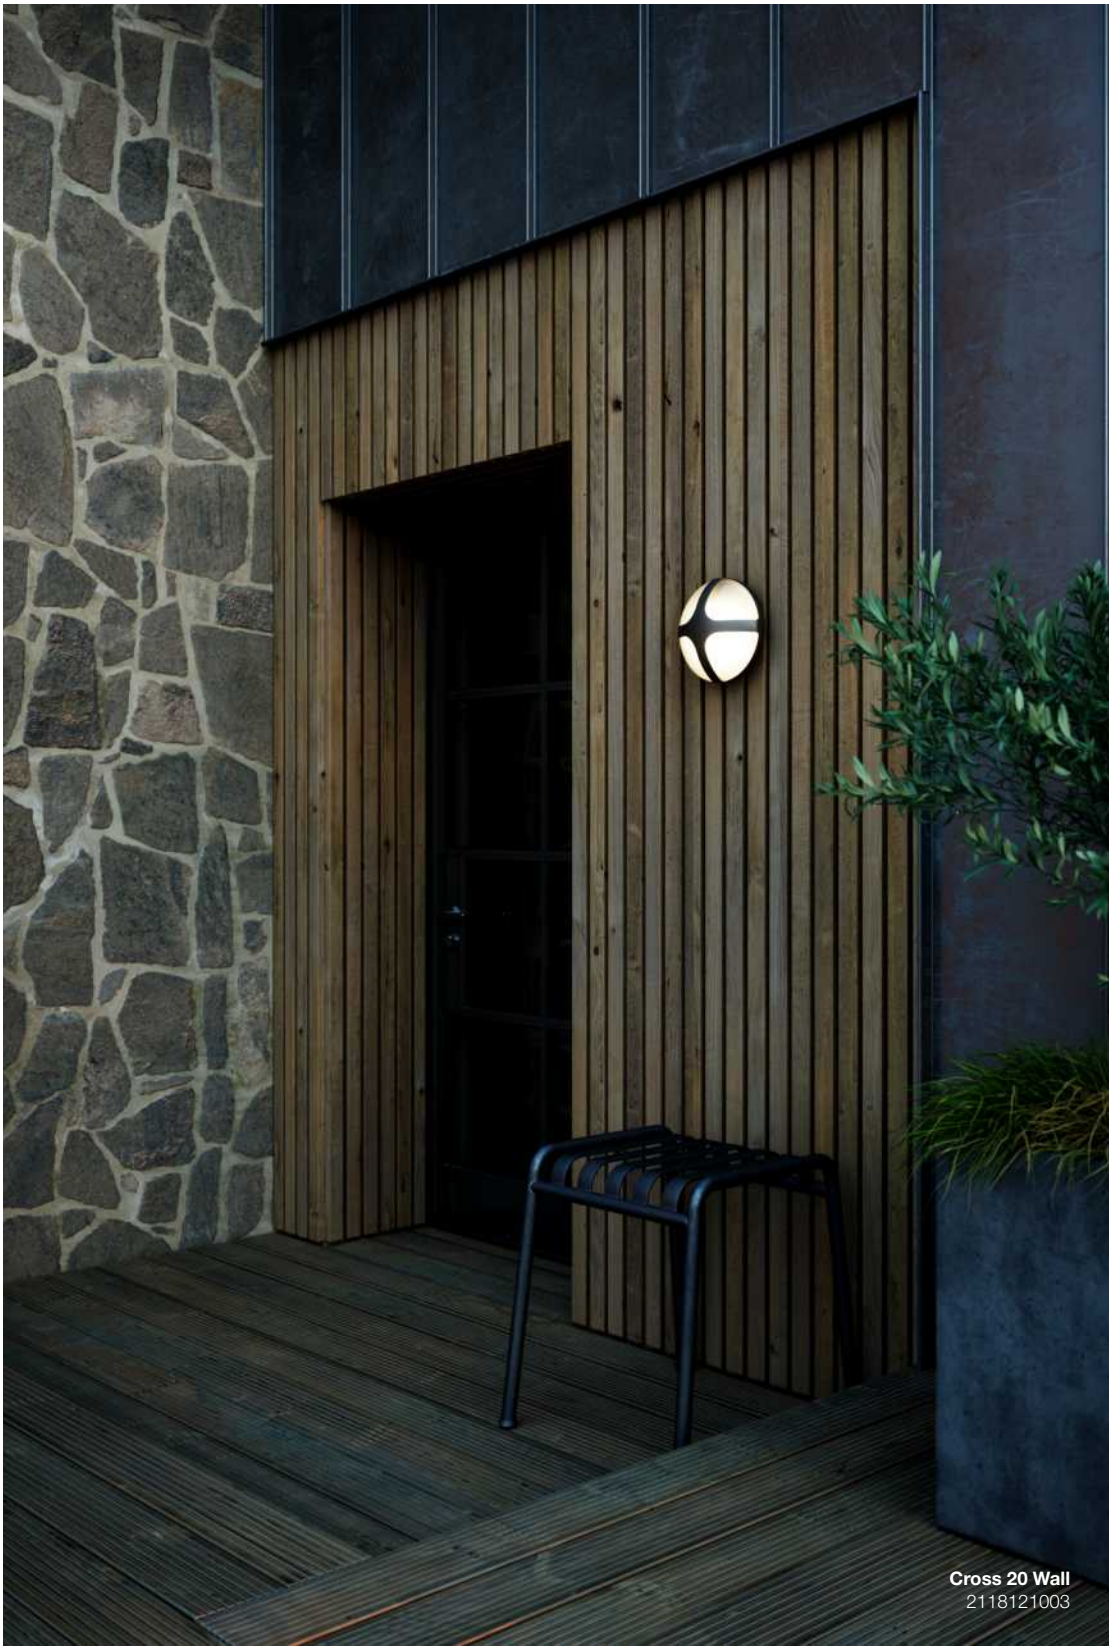
Designed by Danish designer Maria Berntsen

The round, minimalist design expression of the Cross wall light by Danish designer Maria Berntsen will embellish any exterior design - almost like a piece of jewellery for your home. Emits a warm, diffused light that creates an inviting atmosphere for your outdoor areas.

The beautiful and durable brass version is especially suitable for harsh seaside use. Nordlux offers 15 years of guarantee on brass. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust.

Learn more about Cross on page 313

MARIA BERNTSEN
INDUSTRIEL DESIGN



Cross 20 Wall
2118121003

Cross 25 Wall
2118131003

Designed for costal, urban and other rough enviroments

At Nordlux we recommend seaside lamps for most outdoor environments. All our seaside lamps are durable and resistant towards the elements, which means that seaside lamps are advantageous near the shore.

When you purchase a seaside lamp, it will have a glossy surface. The surface will over time take on a beautifully flat and rustic appearance, as the natural and living material moves and changes continuously.

A seaside lamp generally does not require any maintenance. Yet, it is recommended by Nordlux, especially in areas near the coast, to frequently wash the lamp with warm water and a soft brush, to remove salt and in that way achieve the longest possible lifetime.

Nordlux offers a 15-year guarantee on all outdoor lamps in galvanized steel, copper and brass.

Kurnos Wall

The Kurnos wall light has a classic and modern design that is perfect for your entrance, driveway, terrace or any other outdoor space. The curved shades ensure a functional, yet glare-free and diffused light.

The beautiful and durable version in galvanized steel is especially suitable for harsh seaside use. Nordlux offers 15 years of guarantee on galvanized steel. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust.

Learn more about Kurnos on page 256

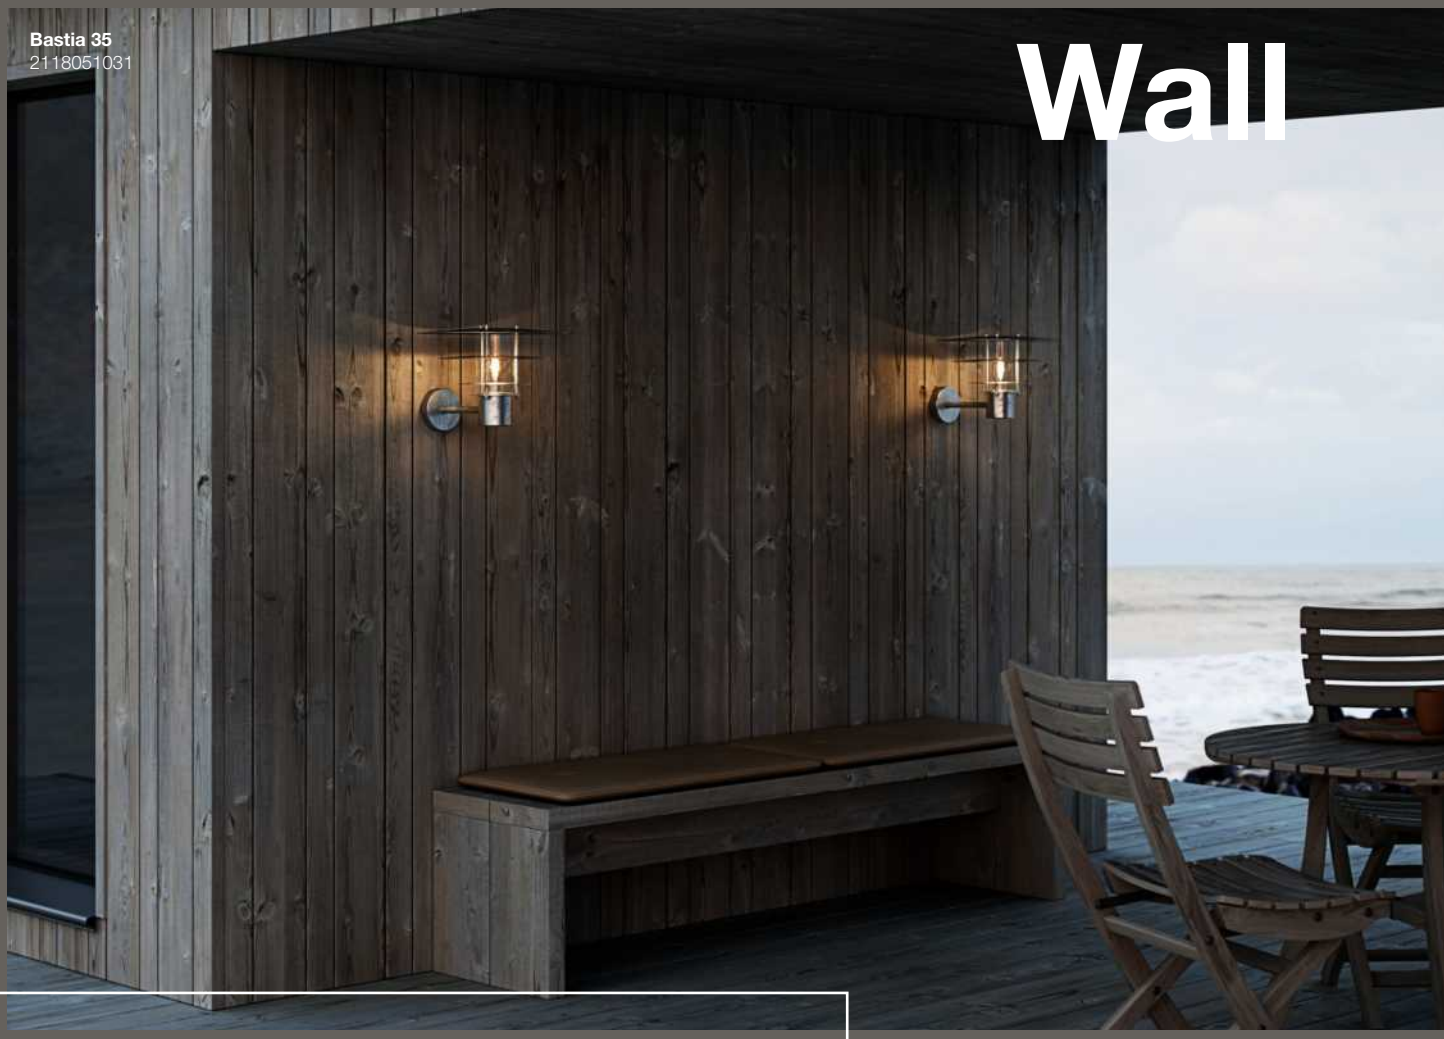
Bastia 35
2118051003

Bastia Wall



Bastia 35
2118051031

Bastia balances a classic and timeless look with a modern, architectural expression. The horizontal shades and acrylic diffuser provide a soft, glare-free light that is perfect for the facade of your home.

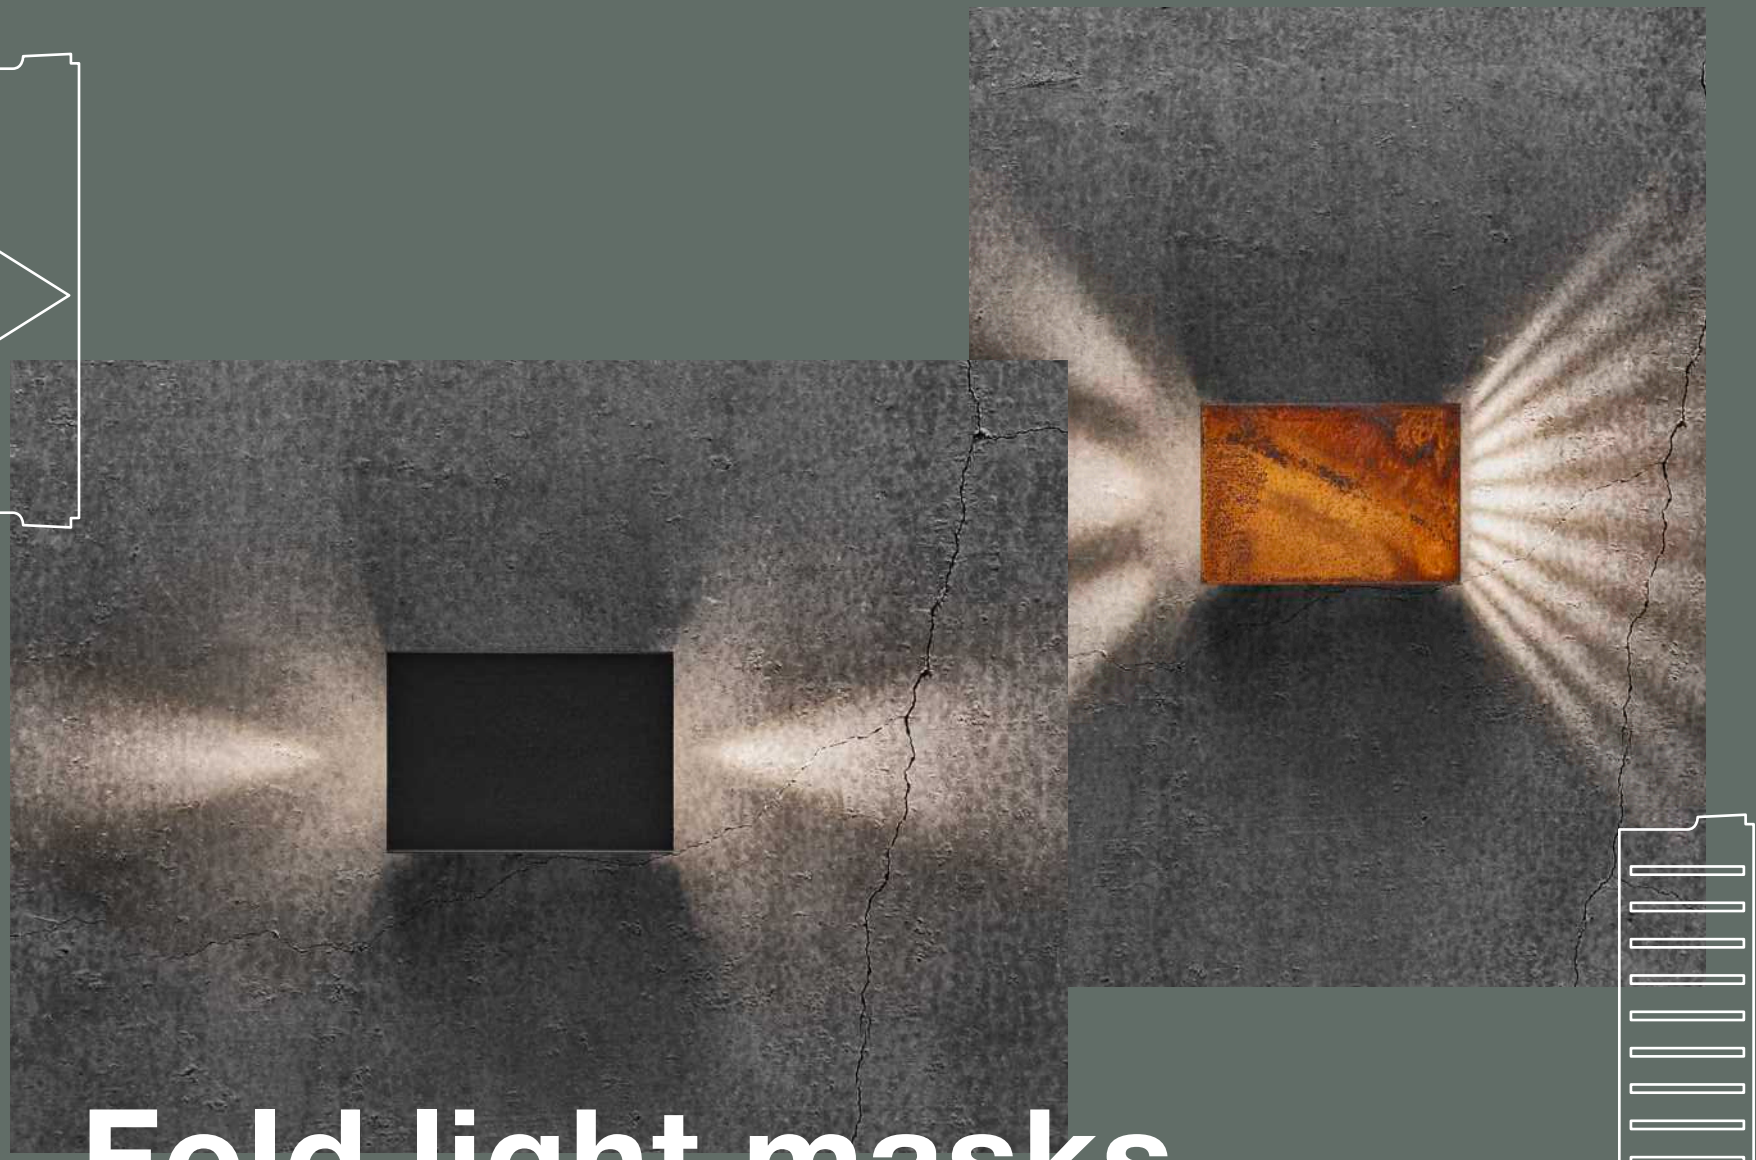
The beautiful and durable version in galvanized steel is especially suitable for harsh seaside use. Nordlux offers 15 years of guarantee on galvanized steel. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust.

Learn more about Bastia on page 257

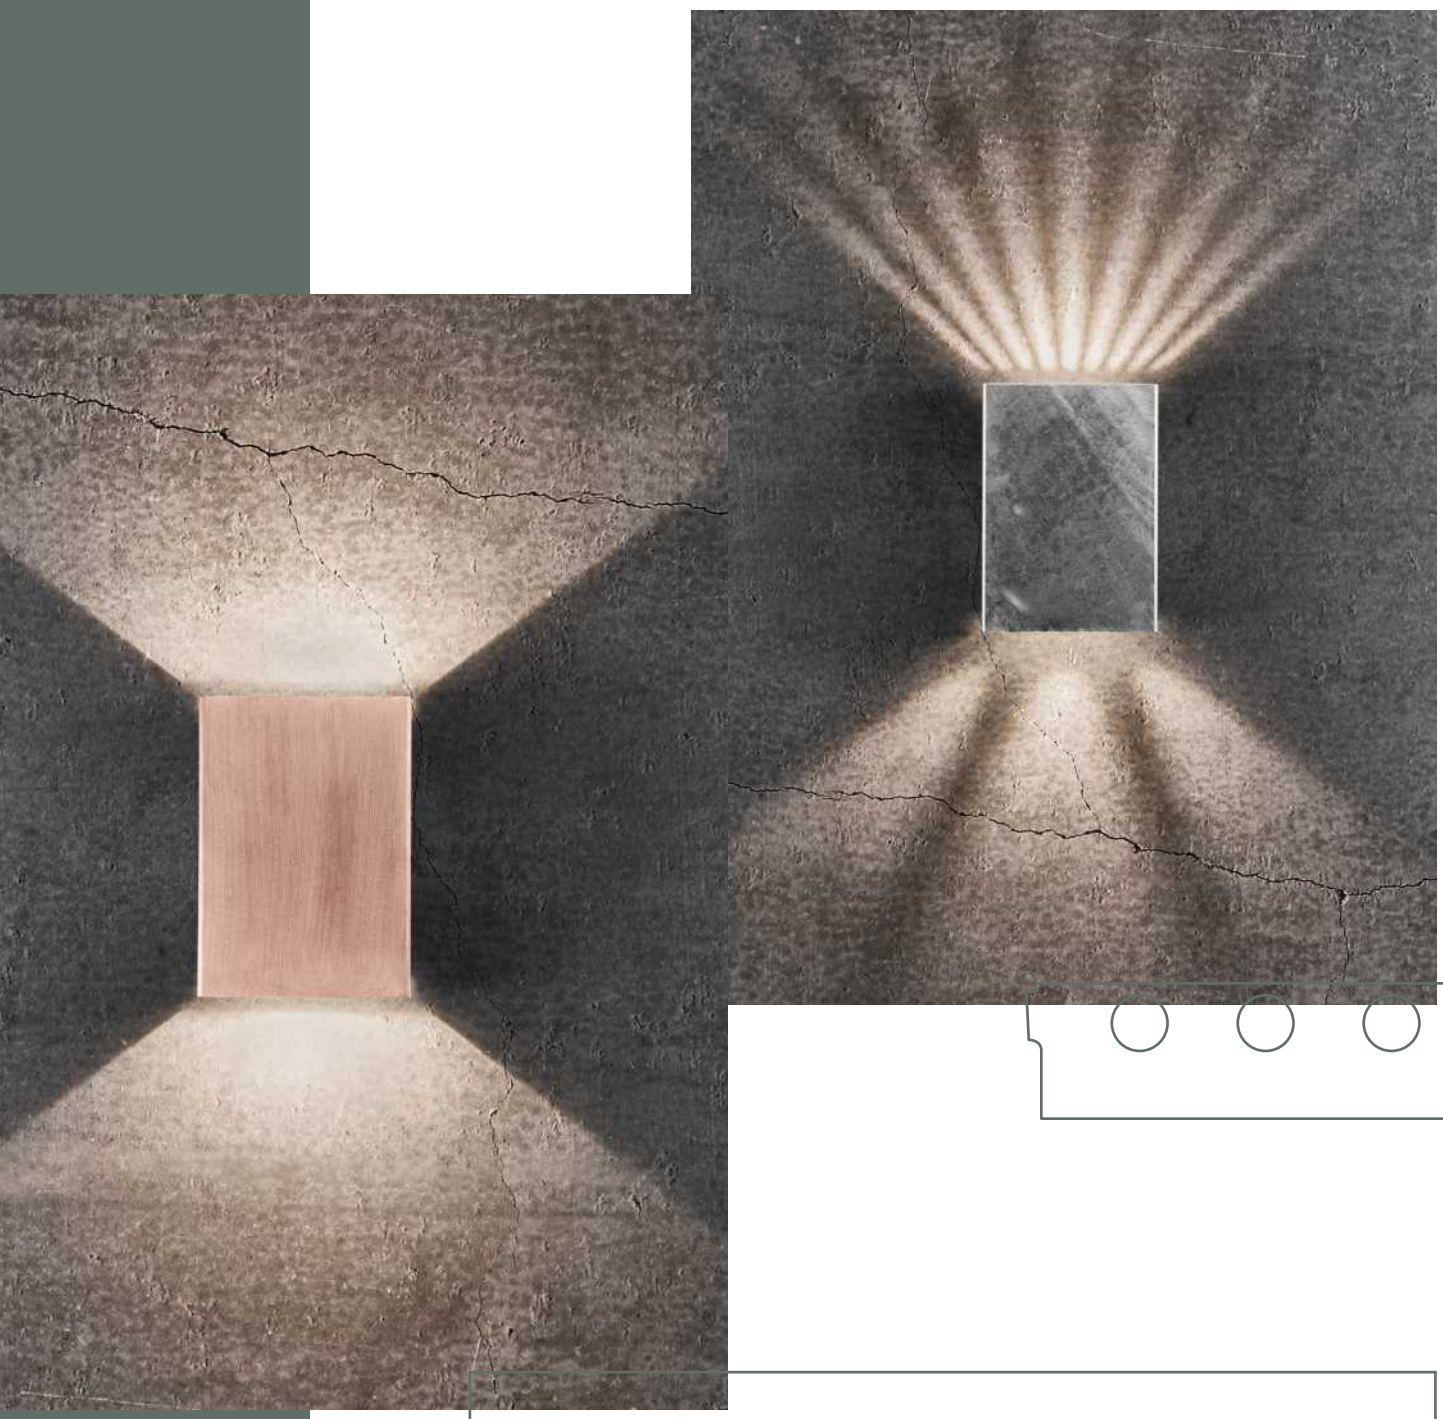
Fold 10
2019041003

Fold Wall

Fold 15
2019051003



Fold light masks



Designed by Danish designer Bønnelycke MDD

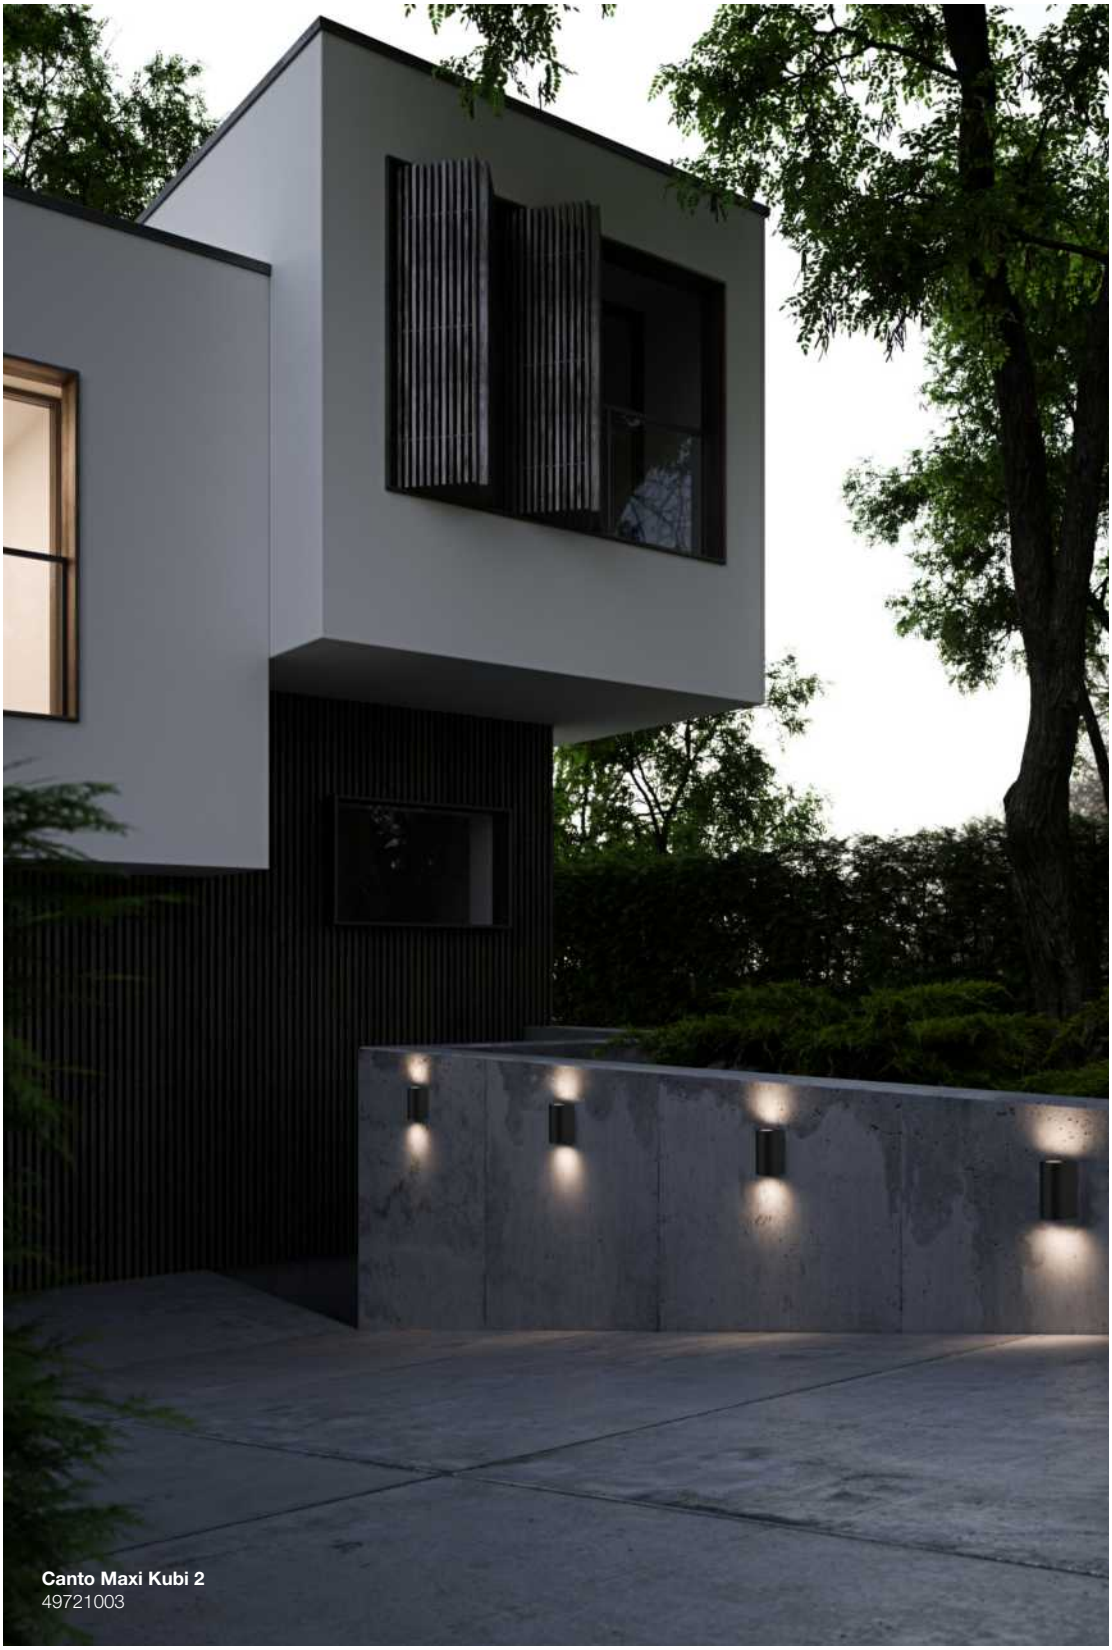
"Fold a sheet of paper, place a bulb behind - and you have a lamp." Although the reality is not that simple, designer Henrik Bønnelycke wants the light to appear as if it is. In terms of shape, Fold is brightly clear, where the selected details and latest LED technology are in focus.

The magnetic shade makes the installation simple and the design distinct without visible screws. The light shines up and down, and the four included 3 light patterns change the light based on desire and personal style.

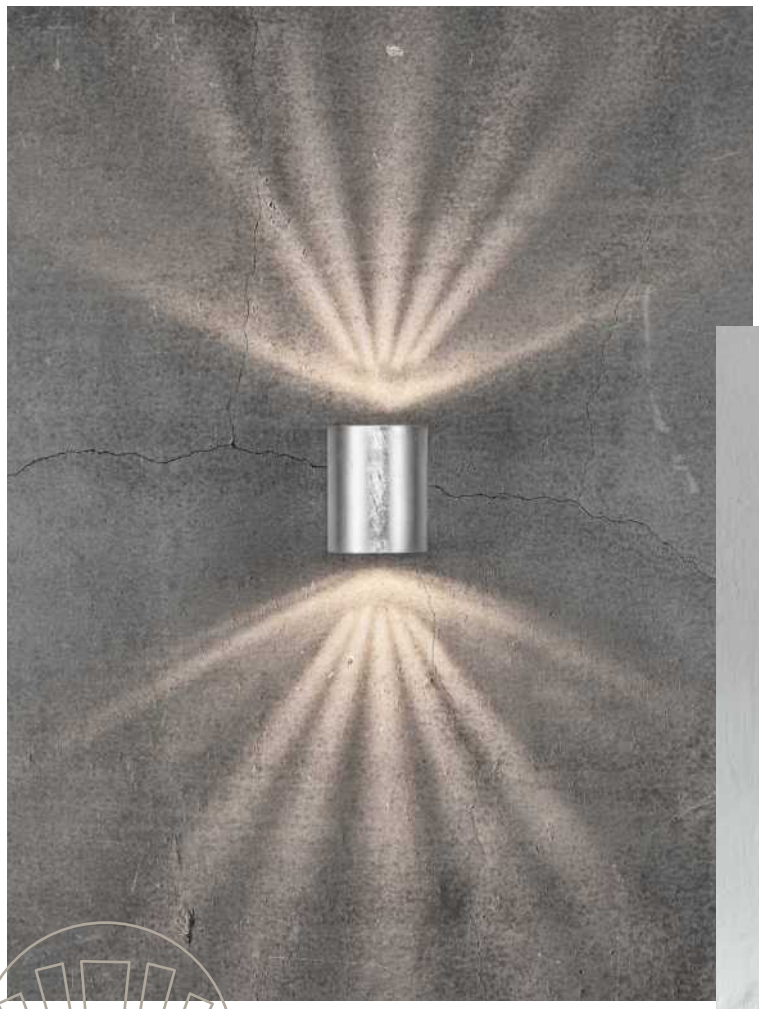
Learn more about Fold on page 304

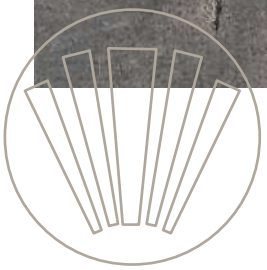
Canto 2
Wall

Canto Kubi 2
49711031



Canto Maxi Kubi 2
49721003





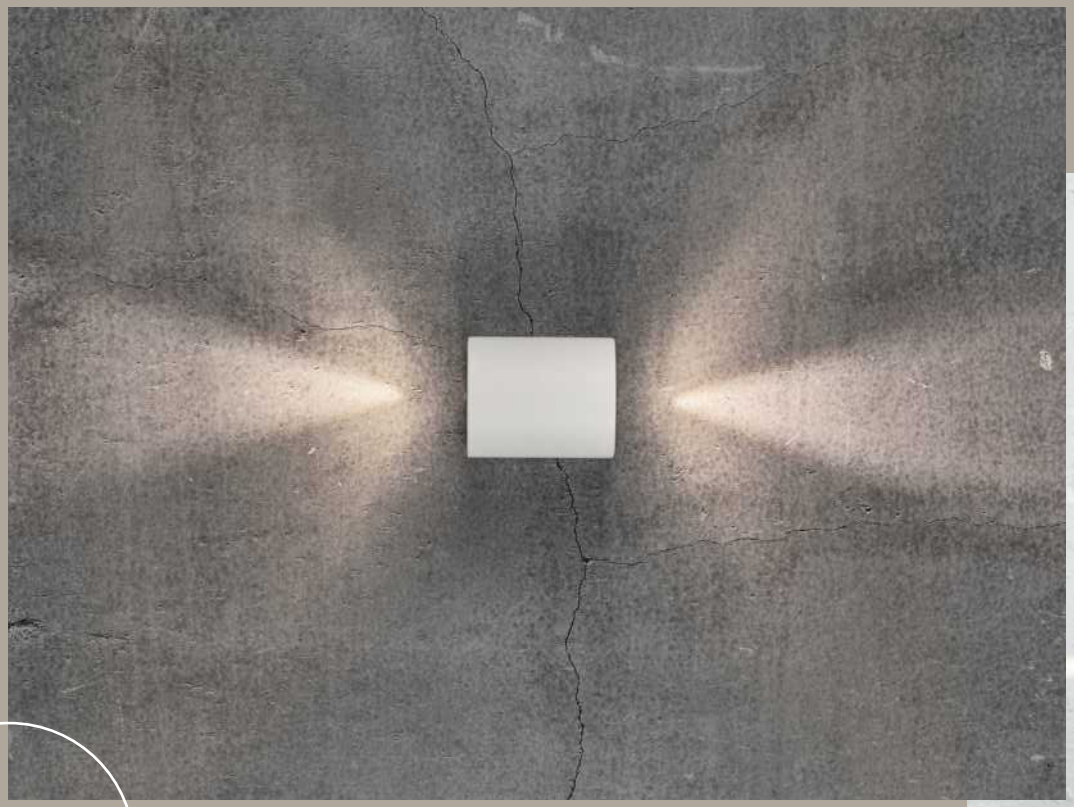
Designed by Danish designer Bønnelycke MDD

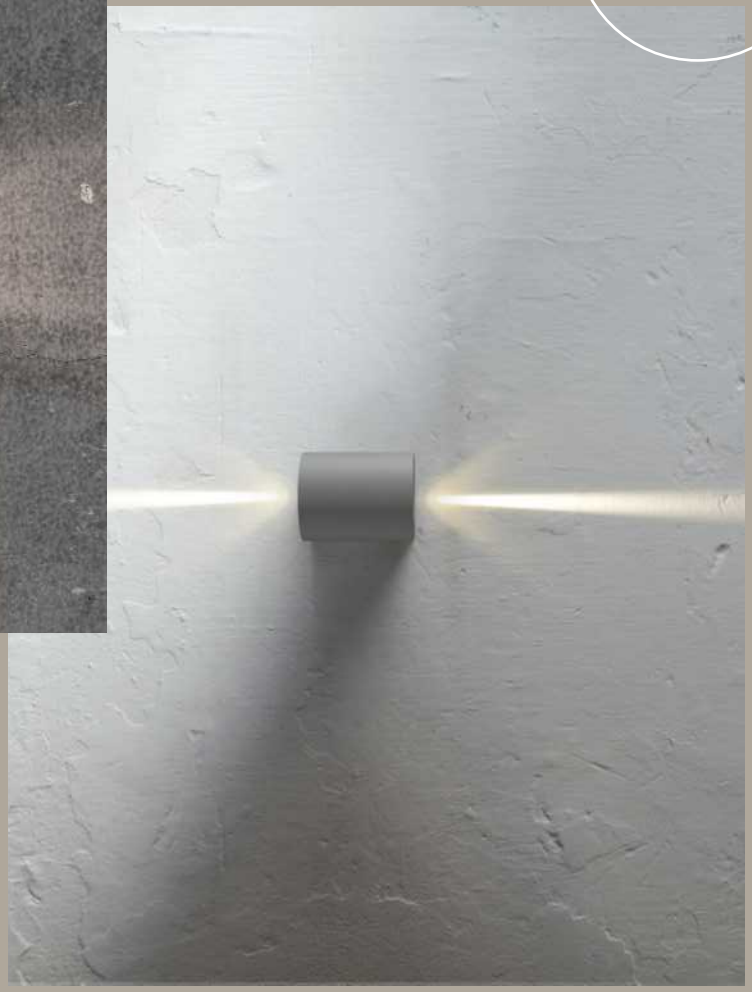
Whether Canto 2 is placed indoors or outdoors, the lamp offers a unique lighting experience.

The minimalist design makes the lamp both decorative and sculptural. The light flows both up and down, and with the three included pattern inserts, it is possible to change the light image according to desire and personal style.

Learn more about Canto 2 on page 306

Canto 2 light masks





Bastia 35
2019061003

Turn Wall

Bastia 35
2019061003

Designed by Danish designer Bønnelycke MDD

Imagine a lamp that can be turned freely after installation, creating beautiful effects with light and shades making the lamp an illuminating piece of art on the wall. This is exactly what Danish designer, Henrik Bønnelycke, has created. Turn is both playful and sculptural, as the magnetic shade can be rotated 360°, making it possible to illuminate exactly what you want.

Turn oozes of Nordic minimalism as it combines modern design and functionality in the most beautiful way. The lamp is resistant to wind and water, and therefore it can be used both outdoors and indoors in the bathroom.

Learn more about Turn on page 309

Scorpius Wall

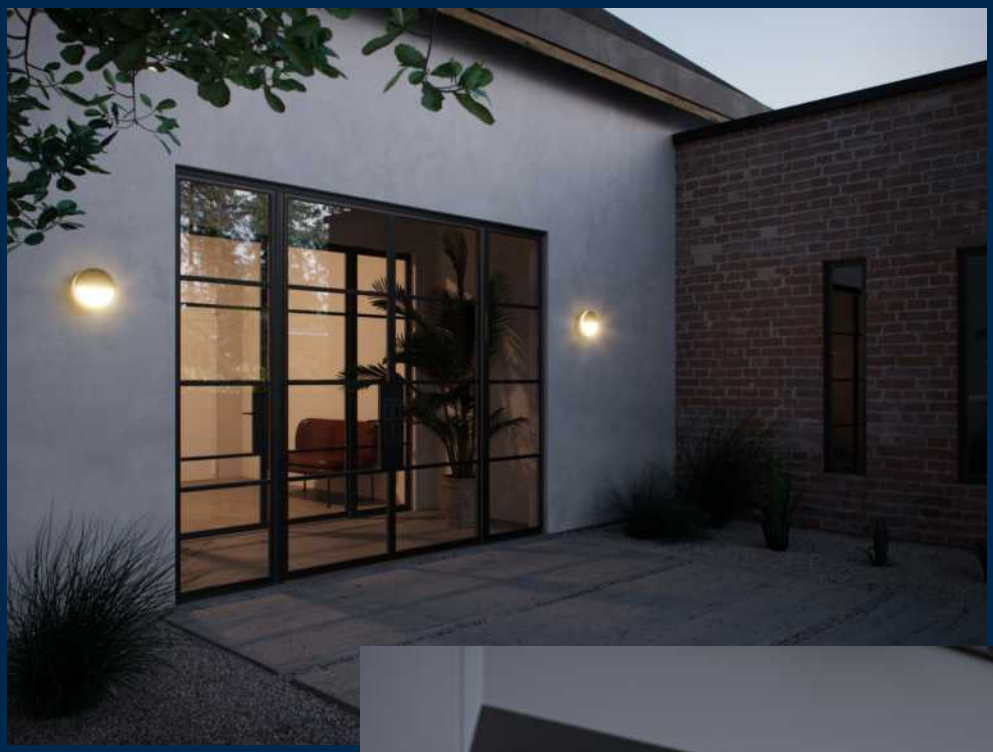
Scorpius
21651031

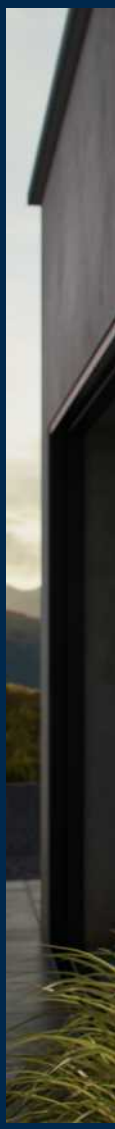
Scorpius Maxi
21651003

Scorpius Wall light has a classic and timeless design. Scorpius has many uses – the perfect fit beside the front door, at the entrance, on the fence, or in the stairwell. It can be used alone or with several placed side by side.

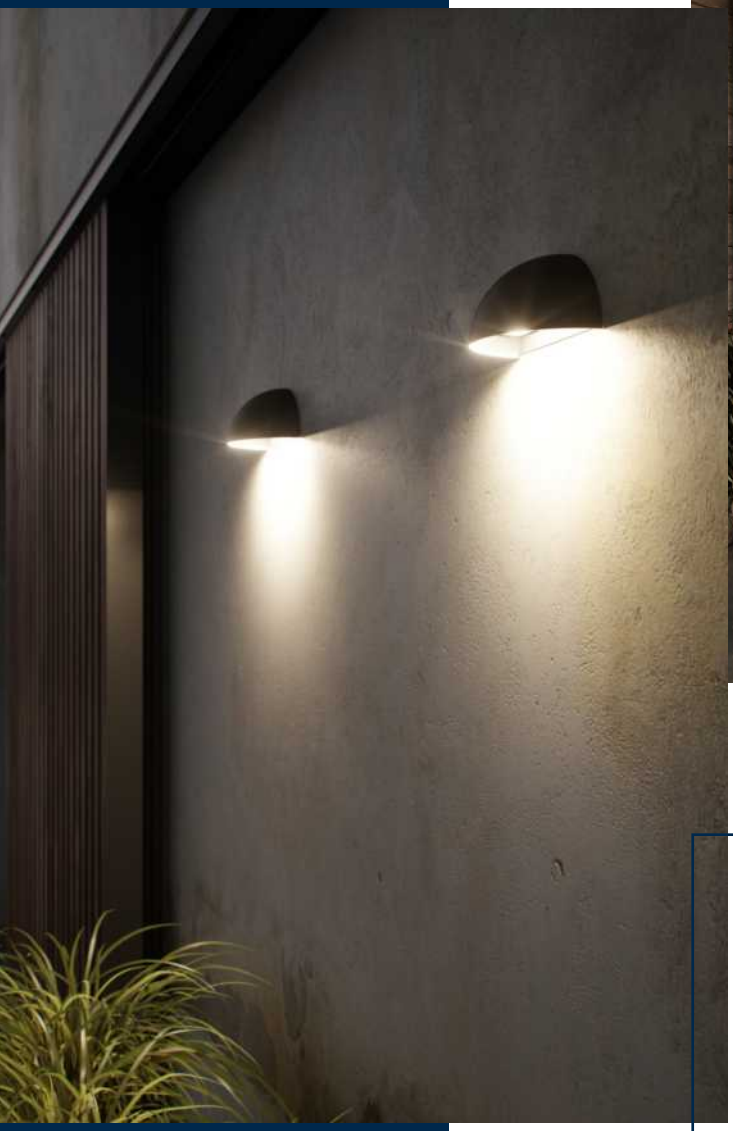
The version in galvanised steel is well suited for the Nordic climate. Nordlux recommends light fixtures in galvanised steel for coastal areas.

Learn more about Scorpius on page 308





There’s a perfect light for everyone with Nordlux Smart



Watch the video

Nordlux Smart is a comfortable and flexible solution to easily set your lights according to your needs and situations. Nordlux Smart bulbs enables you to set the right light for every occasion, from a cozy, relaxing atmosphere to a functional, activating illumination.

The Nordlux Smart products are controlled with the Nordlux Smart app via Bluetooth Mesh without the need of an internet connection.

By adding the Nordlux Smart Bridge you can expand the features and functionalities of the smart system, including for example voice control (Amazon Alexa or Google Home) and control of the light from anywhere.

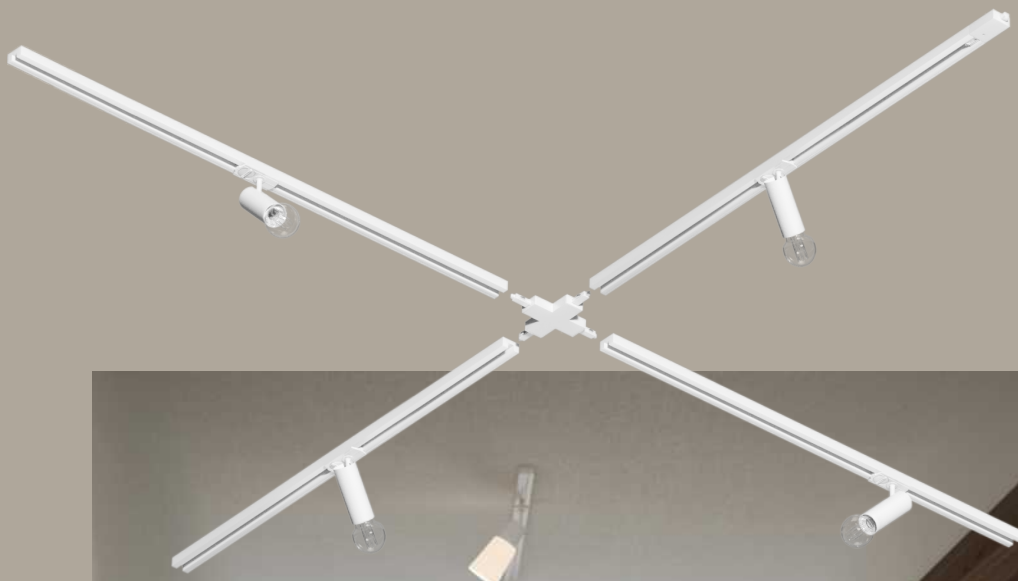
Functional Collection 2021-2022

Our 2021 Functional collection incorporates new technologies and modern design making everyday life easier, smarter and better with lighting. Just as our existing range, the novelties are balancing form, function and quality at excellent value for money, which makes them accessible and easy to use for everyone.

Supplied with the newest technology, our functional products have a long lifetime, are easy to install and many of them are equipped with our Moodmaker™ dimmer function that makes it easy to set the light according to any situation just by using your regular wall switch.

Our streamlined, functional range is perfect for the bathroom, hallway, cellar, garage or any other place that needs a practical and pleasing light wrapped in a beautiful design.

We proudly present our 2021 collection.

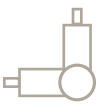


Link your lights

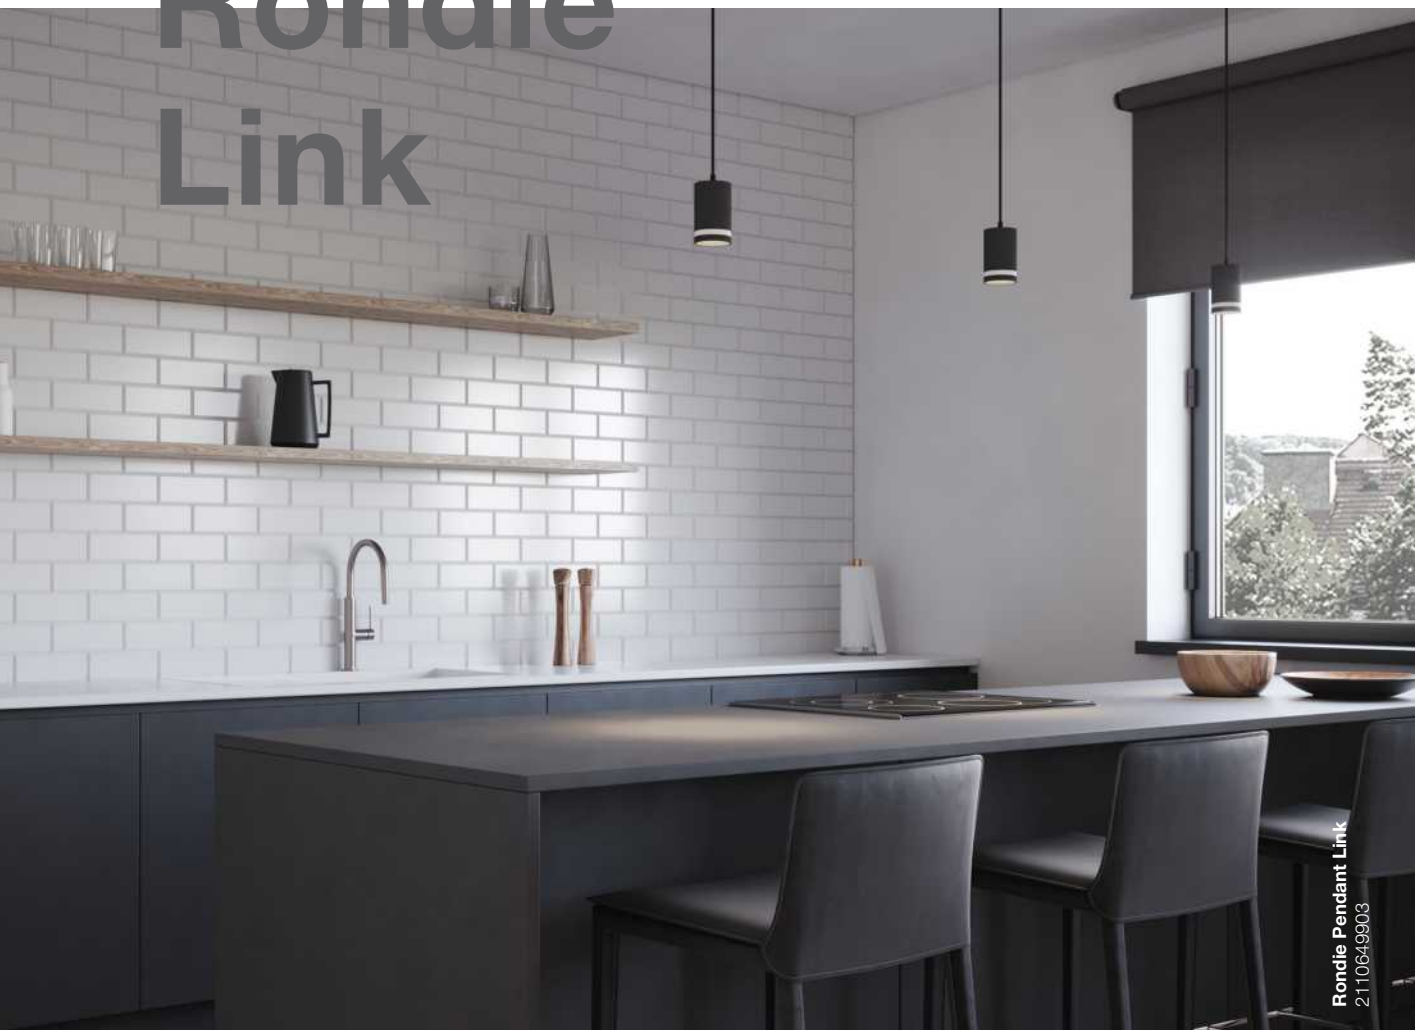
The Nordlux Link System makes mounting of spots and pendants simple and easy.

Choose your desired shape and size of the link rail and connect it to the power outlet.

Then, simply click the spot or pendant into the rail wherever you want it. It is easy to move the lamps along the rail and to add more lights without having to drill any holes.



Rondie Link



Rondie has a round, classic design with a frosted glass ring that adds an interesting light effect to the design.

Provides a pleasant, directional light.

Easy installation and adjustment with the Nordlux Link system.

Learn more about Rondie Link on page 352

Rondie Spot Link
2110639901

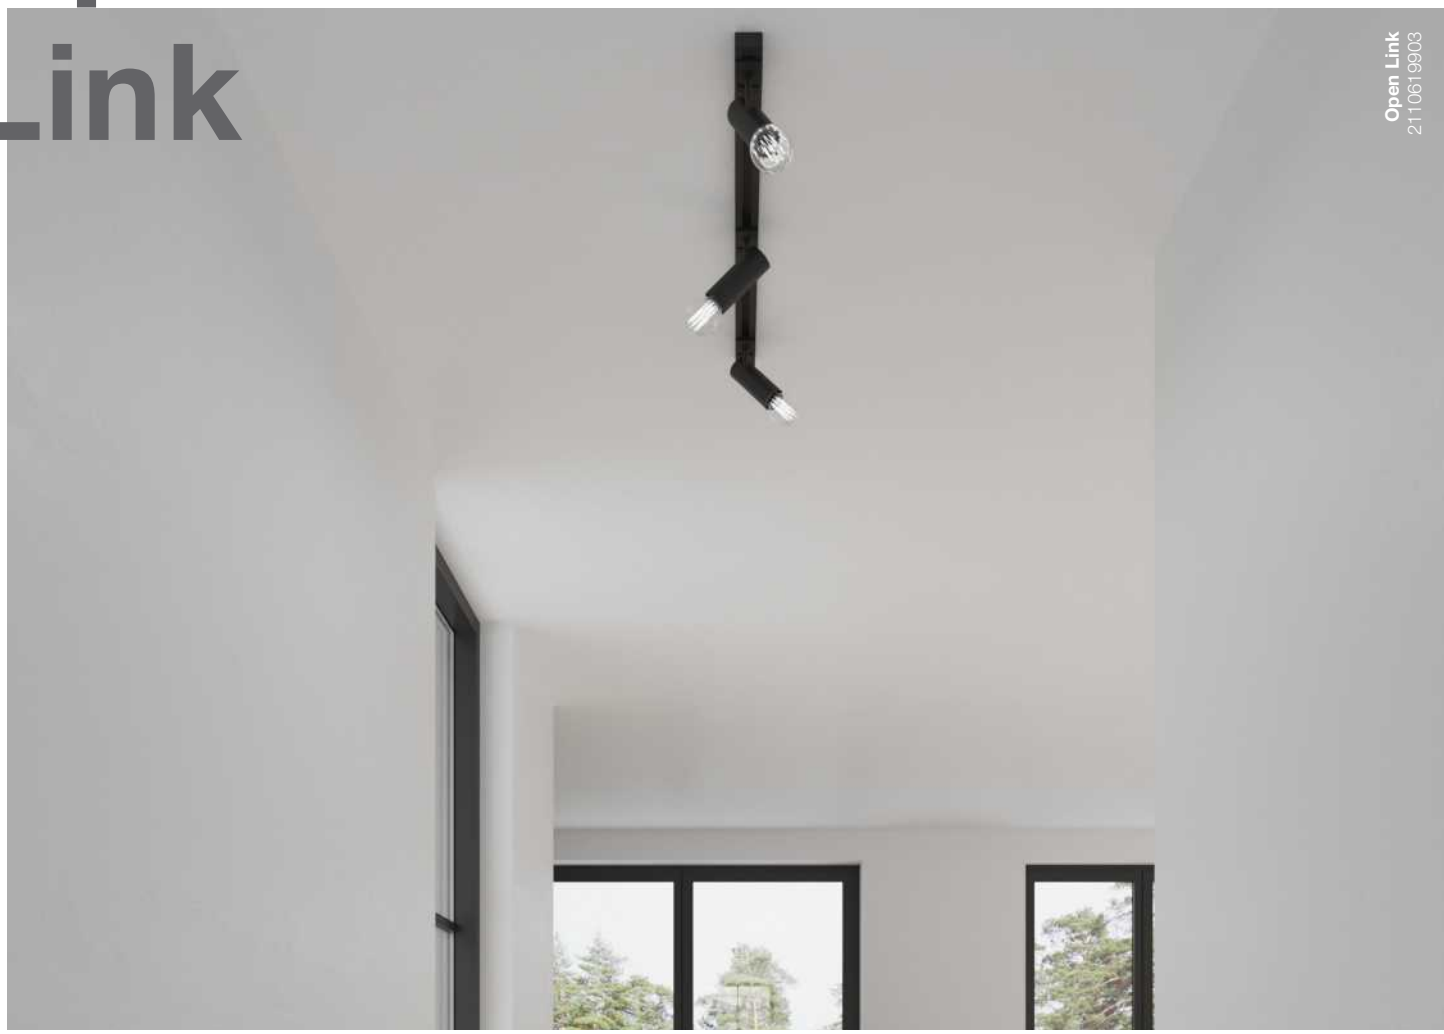
Koniekel Link

The Koniekel series has a classic, cone shaped design that fits perfectly into most interiors and does not take up any unnecessary space.

Provides a pleasant, directional light that is perfect in the hallway or above the kitchen counter where you need a functional and practical light.

Learn more about Koniekel Link on page 352

Open Link



Open is a spot series in a simple, minimalist design. Add decorative bulbs of your taste to create your own personal design. Spot heads can easily be adjusted for a directional light.

Learn more about Open Link on page 351

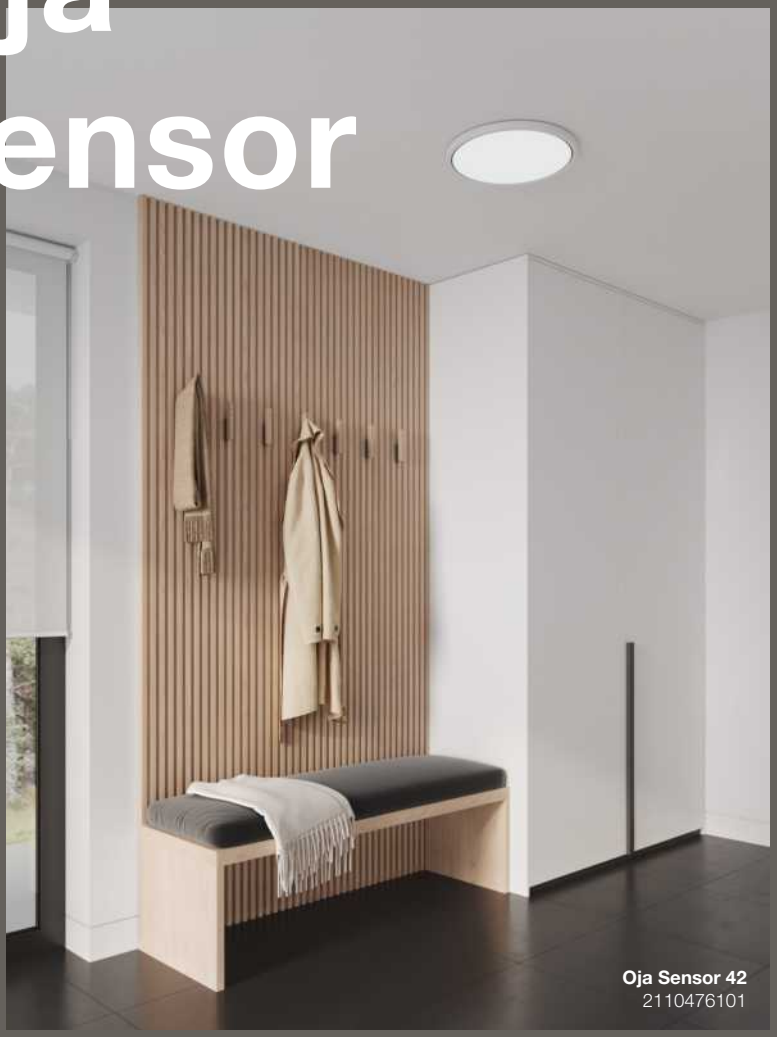
Ethan 2-spot
2110410101

Ethan
Build On

Ethan is a square build-on spot series that gives a pleasant light with the included inside reflectors. Fits any GU10 bulb, has additional cable inlet on two opposite sides and is interconnectable (with internal or external wiring).

Learn more about Ethan on page 376

Oja Sensor



Oja Sensor 42
2110476101

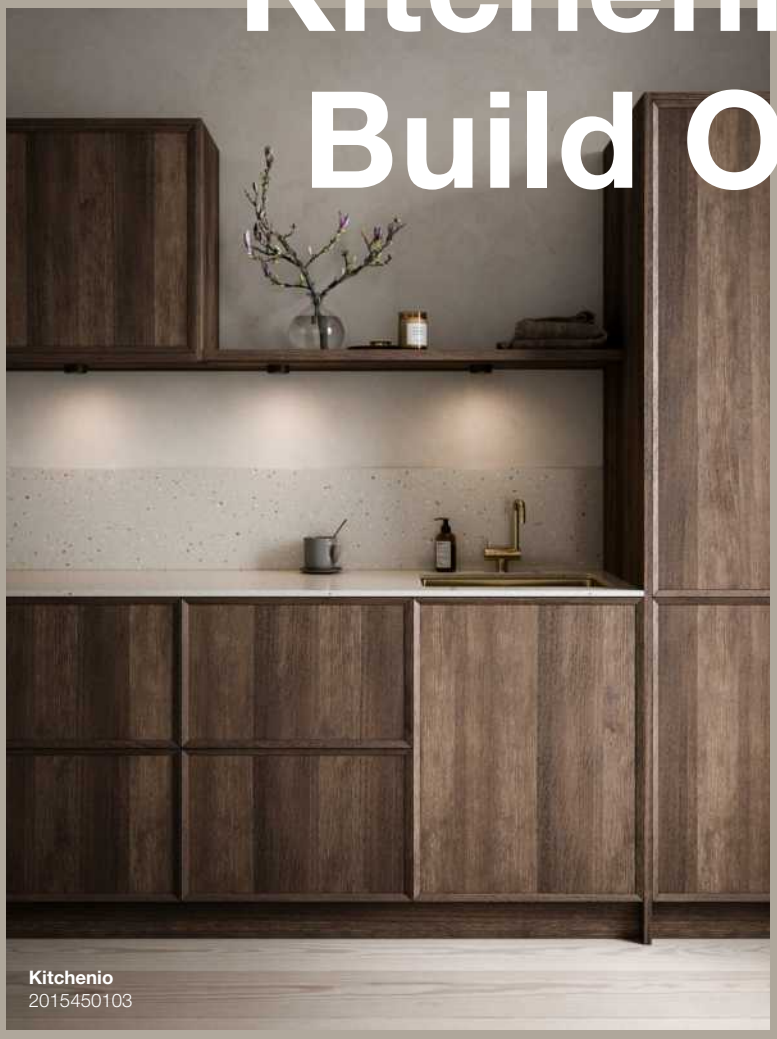
The Oja series is characterised by its classic round and thin design with backlight effect, fitting perfectly into any interior design.

Oja Sensor has a high IP rating (IP54) making it perfect for the bathroom or other humid areas and a built-in sensor that turns the light on when detecting motion

Learn more about Oja Sensor on page 383

Oja Sensor 29
2110456101

Kitchenio Build On



Kitchenio
2015450103

The Kitchenio series is a series of classic, round Downlights that are perfect for the ceiling or underneath the kitchen cabinets giving a pleasant, yet practical light.

Comes with the option of both surface or built-in mounting.

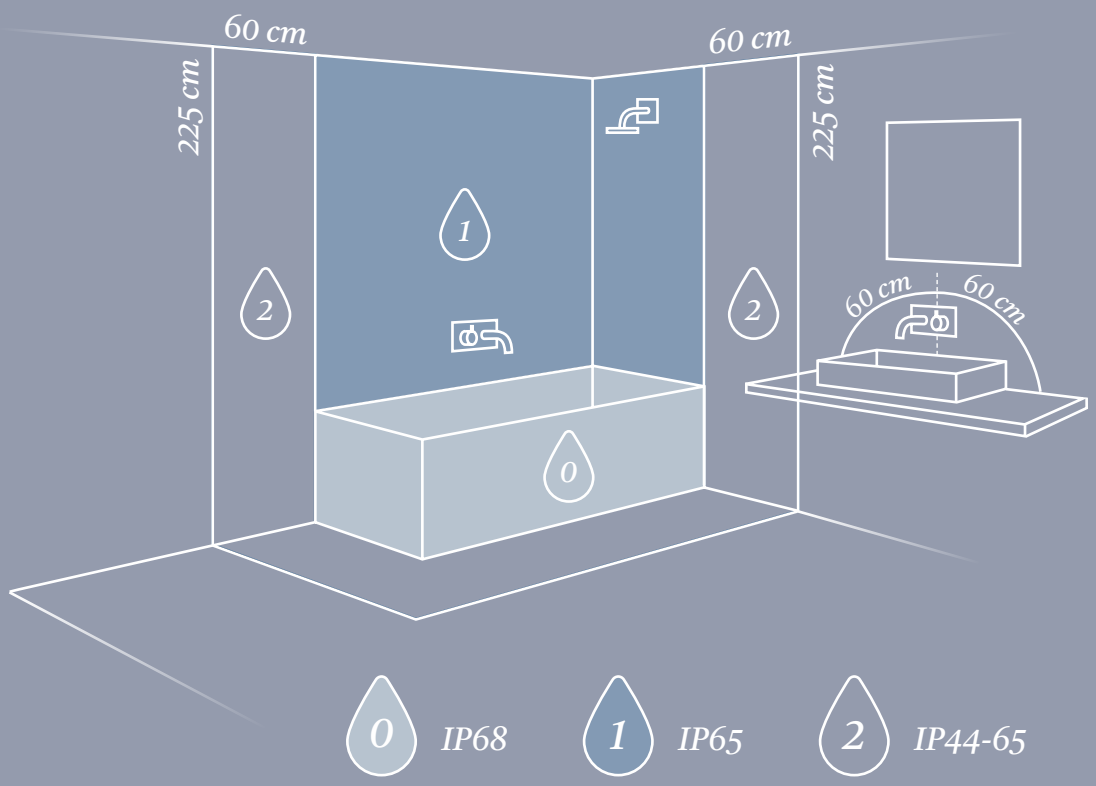
Learn more about Kitchenio on page 410

Harlow Ceiling

Harlow is a rectangular ceiling light in an ultra thin design with backlight effect. Adjust the light with three-step Moodmaker™ dimmer on the regular wall switch.

Suitable for humid areas such as the bathroom because of the high IP rating (IP54).

Learn more about Harlow on page xx



Bathe In Light

Bathroom lighting is a category with very specific safety regulations. Wet areas with moisture, steam and flowing water require very strict lighting regulations. Therefore, Nordlux designs and produces bathroom safe lighting specific for the different zones in the bathroom taking all regulations into consideration.

In most countries, the bathroom lighting zones are divided into four zones - zone 0, zone 1, zone 2 and outside those zones. Please note that the regulations are guiding and can vary depending on the country.

Our "Bathe in Light" concept combines all safety regulations with contemporary LED technology as CCT (Colour Changing Temperature), night light, sensor, dimming by your standard wall switch (no new installations necessary), RA/CRI90 (natural light), etc.

Forget all stress and Bathe in Light in your very own bathroom!

Marlee Wall

Marlee
2110701003

Marlee is the perfect bathroom mirror light carried out in a slim, rectangular design. Easy to mount onto a cabinet, on the mirror or on the wall.

Provides a pleasant, yet practical, downwards light. High IP rating (IP44) makes it suitable for the bathroom or other humid areas.

Learn more about Marlee on page 360

Sóller 2-in-1

Sóller 22
2110746101

Sóller is a series of recessed or surface mounted ceiling lights in a round and minimalist design. Sóller has three-step Moodmaker™ dimmer that makes it possible to adjust the light to every situation.

Perfect for the bathroom or other humid areas (IP44).

Learn more about Sóller 2-in-1 on page 358

Smart Collection 2021-2022

For the 2021 Smart collection we are significantly expanding the range of products that can be controlled by smartphone, tablet or our Smart Remote Control.

This year, we are also introducing Smart bulbs with colours – making it possible to choose between millions of colours and several new settings in the Smart app.

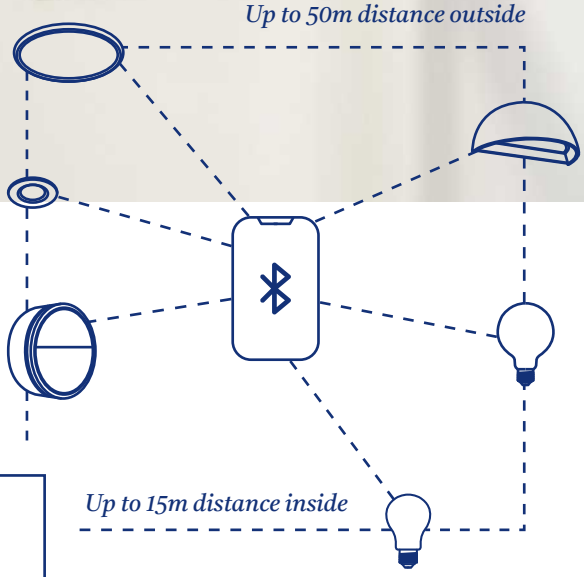
Explore the perfect light for a colourful life with endless customising possibilities. We now offer a wide selection of both Smart bulbs, luminaires and accessories that will cover any need for customisable and convenient lighting.

All of our Smart bulbs can be used in any retrofit luminaire and we even present Smart light solutions that are well-suited for the outdoors. We claim that there's a perfect light for every need - and fulfilling that need has never been easier than now.

We proudly present our 2021 collection.

There's a perfect light for everyone

User friendly Bluetooth Mesh connections



Nordlux's smart makes use of the newest Bluetooth Mesh technology.

This enables it to work both indoor and outdoor with a stable communication between the devices.

Bluetooth has a very low power consumption allowing us to save energy, but also introduce battery powered accessories, such as a daylight and motion sensor.

Bluetooth also allows our users complete anonymity and strong privacy protection – because we allow access to all the basic functions without signing up with any account or email.

WiFi Bridge connects to a world of advanced functions

Voice control with Google Home & Amazon Alexa

Share settings with other susers

Schedules & programs

Vacation mode

Remote control

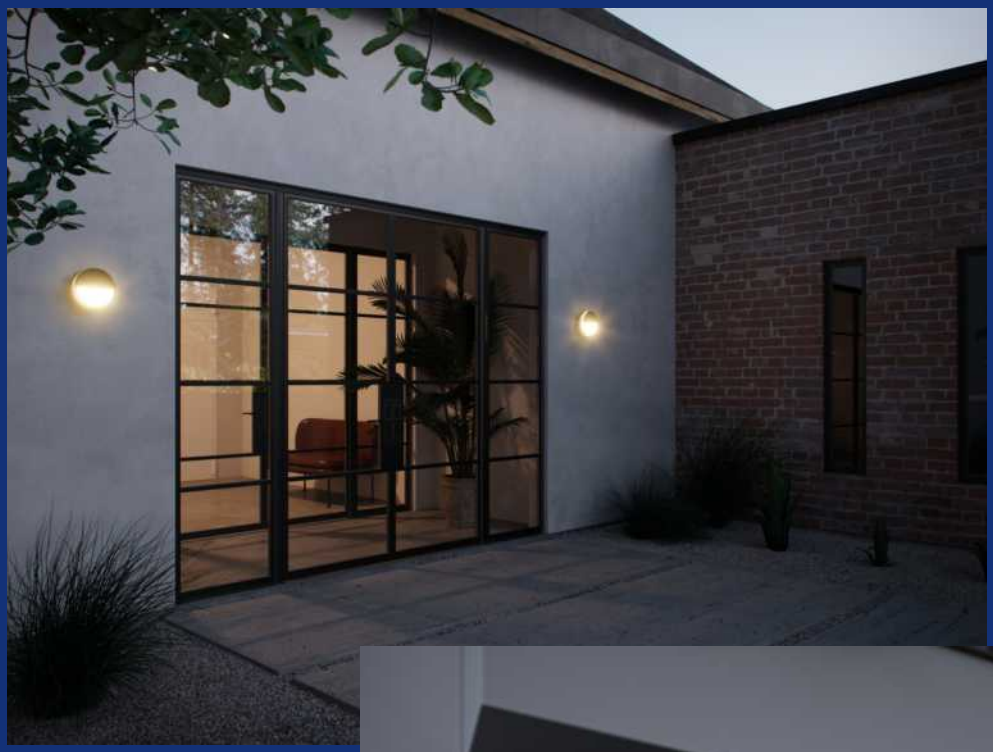
The Smart Light Bridge enhances the features and functionalities of the Nordlux Smart Bulbs.

In addition to instantly controlling the bulbs via Bluetooth, the Smart Light Bridge makes it possible to set schedules and programs, control the lights from anywhere and activate a presence simulation, when the family is on vacation.

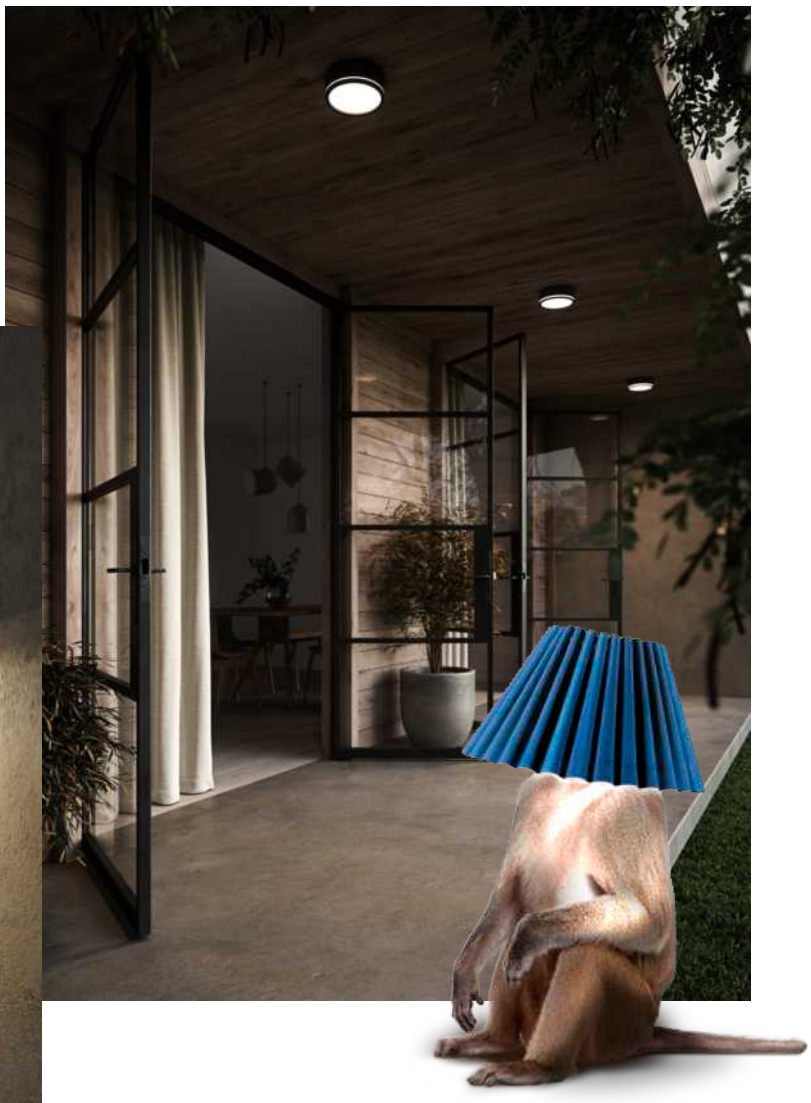
As Nordlux Smart Light is compatible to the smart home assistants Amazon Alexa and Google Home, it is also possible to control the lights by voice.

The bridge must be purchased separately.

There's a perfect light for every need



There’s a perfect light for everyone with Nordlux Smart



Nordlux Smart is a comfortable and flexible solution to easily set your lights according to your needs and situations. Nordlux Smart bubs enables you to set the right light for every occasion, from a cozy, relaxing atmosphere to a functional, activating illumination.

As shown on the picture, the Nordlux Smart products are controlled with the Nordlux Smart app via Bluetooth Mesh without the need of an internet connection.

By adding the Nordlux Smart Bridge you can expand the features and functionalities of the smart system, including for example voice control (Amazon Alexa or Google Home) and control of the light from anywhere.

Smart bulbs

Decorative Smart bulbs in amber colour and with a croissant shaped light source. The warm white light creates a cosy atmosphere. Reduce or increase the brightness with your smartphone or tablet, or add a Smart Remote Control to control your lights without your smartphone.

Don Smart
2110900103

Don Smart

Don is a series of Smart Downlights that can be adjusted by the Nordlux app on your smartphone, tablet or by the Nordlux Smart remote.

Dim the light, set the colour temperature from cold to warm white or chose between millions of colours to set just the right ambience.

The high IP rating (IP65) makes it suitable for bathrooms or other humid areas. Parallel connection possible (up to 15 Downlights).

Learn more about Don Smart on page 452

Remote Smart

With the Nordlux Smart Remote Control you are no longer dependent on having your smartphone or tablet nearby. The Remote Control allows you to group multiple smart bulbs together (for example by rooms) and control these groups by a simple click. You can also add your favourite moods to the remote control for easy access, dim the grouped lights and control the colour tone.

The Remote Control can act as both a wall switch, with options to attach a magnetic base to the wall, and as a remote control, which is easily attached to the magnetic base.

Learn more about Remote Smart on page 462

Ava Smart
2019016003

Ava Smart

Ava Smart
2019016003

Ava is a multifunctional lamp that can be placed both in the ceiling and on the wall. The lamp has integrated LED as well as two lighting functions, which consist of indicator light when it is dark, and automatic activation of light when movement is detected (Nordlux Smart Sensor needed).

Ava has Bluetooth connection and is part of the Nordlux Smart Light range, which makes it possible to control the light from your phone, with voice control or via the Nordlux Smart Sensor. Furthermore, an optional cover cap is included which makes it possible to determine the design and light output yourself.

Learn more about Ava Smart on page 455

Grip Smart

Grip Smart
2118201001

Designed by Danish designer Maria Berntsen

With a beautifully curved design, the Grip wall light by Danish designer Maria Berntsen adds a modern, yet timeless feel to your outdoor space.

Grip lights up the dark with a stylish elegance that fits any exterior design. The built-in Nordlux Smart LED creates a soft, diffused light that you can dim, adjust and turn on and off through the Nordlux Smart system.

Bulb Collection 2021-2022

For the 2021-2022 bulb collection, our sustained development has resulted in the largest bulb assortment ever. All of our bulbs meet our high quality demands – they are equipped with world leading LED technology, have a high energy efficiency and a long lifetime.

Furthermore, they are carried out with high-quality coating, great colour rendering and an elegant design.

The range covers low to high wattages and lumen, both in warm and cool white. Our functional Energetic branded bulbs come in full glass, both clear and milky as well as a basic plastic range with value packs. Our added value bulbs, such as our new deco range and popular Magician range, come into the Nordlux brand.

Lastly, we are proud to announce that all the packaging material used for our new bulb range has changed to a sustainable solution.

No more plastic, only recycled materials.

We proudly present our 2021-2022 collection.

FSC certified wood

FSC® & responsibility

We focus on protecting our resources and the environment. This is one of the reasons why we have been FSC certified since 2016. FSC certification is about using trade forest products such as wood and paper from responsible sources, and ensuring clear traceability for the wood – all the way from forest to the finished product in the shop.

Responsible sources refers to local populations, animals and plant life being taken into consideration, that logging is done in an environmentally appropriate way and that the deforested areas are replanted.

The desire and motivation for FSC certification of the products which include wood is a natural continuation and development of our approach to environment and sustainability – and we will continue to demand FSC certified wood for those of our design products that include wood.

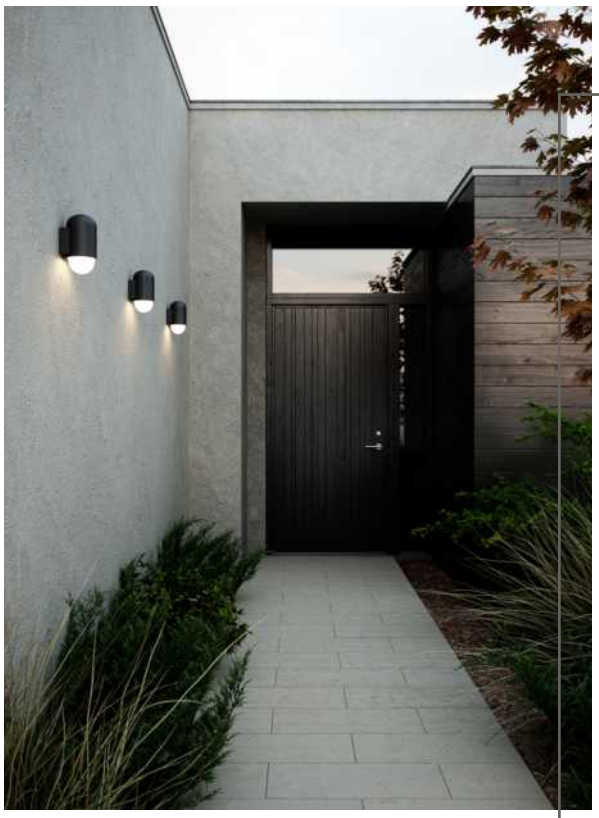
We see sustainability as a task involving everyone associated with Nordlux – from the owners, board and management to employees and suppliers.

**FSC® stands for Forest Stewardship Council® and is a recognised international non-profit labelling scheme for wood and paper.*

FSC certification ensures responsible forest management and improved living conditions for the local population in forests worldwide.

FSC-C124559

Safety and water protection classification



Nordlux uses the IP code system to explain how well suited products are for humid environments, such as bathroom and outdoors.

The IP code is an international standard, that classifies and rates the degree of protection against intrusion, dust, accidental contact and water.

IP consists of two digits. First digit explains effectiveness against intrusion of objects.

It important to protect electronics against contact with hands and fingers and Nordlux's product adhere to all the legal standards for this, typically level 2.

We even offer product that are completely protected against dust – that would be level 6. Second digit explains the degree of water protection. 0 being no protection and 5 meaning protected against water jet from all directions.

Degree and protection	Intrusion protection	Water protection
	0 Not protected	0 Not protected
Protected against	1 Solid objects larger than 50 mm	1 Vertically dripping water
Protected against	2 Solid objects larger than 12 mm	2 Vertically dripping water at an inclination of 15° degrees
Protected against	3 Solid objects larger than 2,5 mm	3 Splashes of water at an angle of up to 60° degress
Protected against	4 Solid objects larger than 1,0 mm	4 Sprinkling of water
	5 Dust protected	5 Protected against water jets
	6 Dust-proof	6 Protected against strong waves
		7 Protected against the effects of temporary immersion in water
