

4—concepts—

4 concepts

We would like to interest you
in collection of unique HANDMADE glass lamps
designed by Jaroslaw Stepniak
and produced by our company Touch Point
under the brand named 4concepts.

We are proud of skills and creativity
of the people who work for and collaborate with us.
Our HANDMADE glass products are manufactured
in Poland, where there is a long tradition of high
quality hand forming glass recognized worldwide.

In addition to regular offer we are ready
to design and produce the lamps
at the individual request of our clients.

Please refer to the presentation of our products.

Pragniemy zaprezentować Państwu
kolekcję unikatowych lamp szklanych
projektowanych przez Jarosława Stępnika
i produkowanych przez firmę Touch Point
pod marką 4concepts.

Wszystkie lampy są ręcznie formowane przez
hutników artystów w polskich hutach.
Szklarstwo w Polsce ma wielowiekową tradycję
i może się poszczycić rzemieślnikami
o najwyższych światowych umiejętnościami,
co w połączeniu z wysokiej jakości szkłem pozwala
na uzyskanie wspaniałych efektów –
pięknych lamp szklanych.

Poza kolekcją stałą możemy realizować specjalne
projekty zgodnie z oczekiwaniami Klientów.

Zapraszamy do zapoznania się z naszą kolekcją.

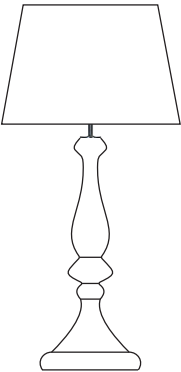

TECHNICAL AND COMMERCIAL INFORMATION

1. The lamp base is handmade by highly skilled craftsmen. Glass may contain any bubbles and other defects traditionally found in one-off structure. Craftmanship guarantees the uniqueness of your product.
2. Bases of the lamps which are made from multicolour glass may differentiate in saturation of each colour, which is a result of a complex formation process.
3. Colours of the shade may slightly differ from reality. It is possible to choose lampshades from the whole collection in the catalogue, as well as to buy only the base or the lampshade.
4. Do not lift and move the lamp by holding the bulb holder.
5. The electrical wire (Z-mount) cannot be replaced.
6. Lamp bases and shades may slightly vary due to the manual nature of its production.

INFORMACJE TECHNICZNE I HANDLOWE

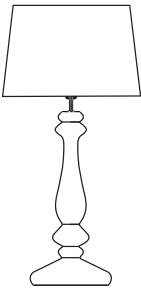

1. Podstawy lamp formowane są ręcznie przez wysoko wykwalifikowanych artystów-rzemieślników szklarskiego rękodziela. Szkło może zawierać pęcherzyki powietrza i inne defekty tradycyjnie spotykane w ręcznej produkcji szkła. Rzemieślnicze wykonanie gwarantuje niepowtarzalność Twojego produktu.
2. Podstawy lamp wykonane z wielokolorowego szkła mogą różnić się nasyceniem poszczególnych kolorów, co jest wynikiem złożonego procesu formowania.
3. Kolory abażurów na zdjęciach mogą nieznacznie odbiegać od rzeczywistości. Istnieje możliwość doboru abażurów z całej kolekcji znajdującej się w katalogu, jak również zakup samej podstawy lub abażura.
4. Nie należy podnosić i przenosić lampy trzymając za oprawkę żarówki.
5. Przewód elektryczny jest niewymienny.
6. Podstawy lamp i abażury mogą się nieznacznie różnić ze względu na ręczny charakter produkcji.

PRESTIGE LINE

When designing Prestige Line lamps we had a clear goal in mind: create objects which captivate with their sophistication and stun with the mastery of form, whatever the cost and labor needed to produce them.

Perfection in every detail and beauty of the finest particular are the defining feature of lamps in this range.

Prestige Line means lamps which may be housed surrounded by authentic pieces of art.

Projektując linię PRESTIGE mieliśmy jasny cel - stworzyć przedmioty, które zachwycają swoją niezwykłością i oszałamiają mistrzostwem formy bez względu na koszty i nakład pracy potrzebny do ich wytworzenia.

Perfekcja w każdym detalu i piękno form to cechy i definiujące lampy z tej serii.

Linia PRESTIGE to lampy, które są prawdziwymi dziełami sztuki.

TECHNICAL DETAILS
E27 bulb holder, without bulb;
EU plug, 220 - 240 Voltage, 60W max.
(incandescent bulb); CE standard.

MATERIALS
Base of the lamp - HANDMADE
transparent glass covered
with the glossy copper coating;
Bulb holder - chromed steel;
Electric wire - black in cotton enlase;
Shade of the lamp - high quality fabric;

Attention:
The code of the lamp consists of 9 numbers.
The first six numbers determinate lamp
model and the last three numbers determi-
nate shade, eg.: L203261255 means model
L203261 and shade A255

MODENA WHITE	A230	truncated cone D45-34 H30	white/white
MODENA BLACK	A240	truncated cone D45-34 H30	black/gold

TECHNICAL DETAILIES
E27 bulb holder, without bulb;
EU plug, 220 - 240 Voltage,
60W max. (incandescent bulb);
CE standard.

MATERIALS
Modena White - Base of the
lamp HANDMADE, bicolor
transparent & white glass
Bulb holder - chromed steel
Electric wire - transparent pvc,
Modena Black - Base of the
lamp HANDMADE, bicolor
transparent & black glass
Bulb holder - chromed steel

Electric wire - black in cotton enlace
Shade of the lamp - high quality fabric
The shade can be leveled
horizontally with the joint under
the light bulb.

Attention:
The code of the lamp consists
of 9 numbers. The first six numbers
determinate lamp model and the last
three numbers determinate shade,
eg.:L036082240 means model
L036082 and shade A240

MADE IN EU

CLASSIC LINE

When designing Classic Line lamps we endeavored to develop sublime objects, yet economical in form, with shapes filled with natural harmony.

Although their lines are moderate you may clearly feel an underneath energy dormant in each of these lamps.

Classic Line range is an offer for those who strive to follow the most recent trends in the world design.

Projektując linię CLASSIC staraliśmy się stworzyć obiekty wysublimowane, a jednocześnie oszczędne w formie, o kształtach wypełnionych naturalną harmonią.

Pomimo, że lampy z tej linii mają kształty spokojne i wyciszone, to w każdej z nich można wyczuć drżącą energię.

Seria Classic to propozycja dla tych, którzy starają się podążać za najnowszymi trendami w światowym wzornictwie.

TECHNICAL DETAILS

E27 bulb holder, without bulb;
EU plug, 220 - 240 Voltage,
big shades - 60W max.
small shades - 40W max.
(incandescent bulb); CE standard

MATERIALS

Base of the lamp - HANDMADE
transparent glass 3D
Bulb holder - chromed steel
Electric wire - transparent pvc
Shade of the lamp - high quality fabric

Attention:
The code of the lamp consists of 9 numbers.
The first six numbers determinate lamp model and the
last three numbers determinate shade, eg.: L002011215
means model L002011 and shade A215
